

App for dating

Comprehensive dating platform with advanced matching algorithms, real-time chat functionality, and unique live broadcasting capabilities.

About GoDate

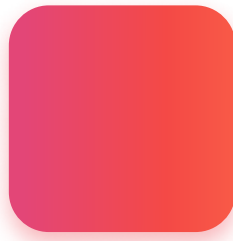

This app offers a range of features, including matching algorithms, chat functionality, and live broadcasting capabilities, which set it apart from other dating apps in the market.

It also offers a unique opportunity for girls to earn money through the platform, as guys have to pay to communicate with them. This incentivizes more active participation and engagement from female users, while also creating a mutually beneficial dynamic for both parties involved.

Registration

The registration section of this app offers a seamless login experience for users, allowing them to sign up quickly and easily using their Google, Apple, or Facebook accounts.

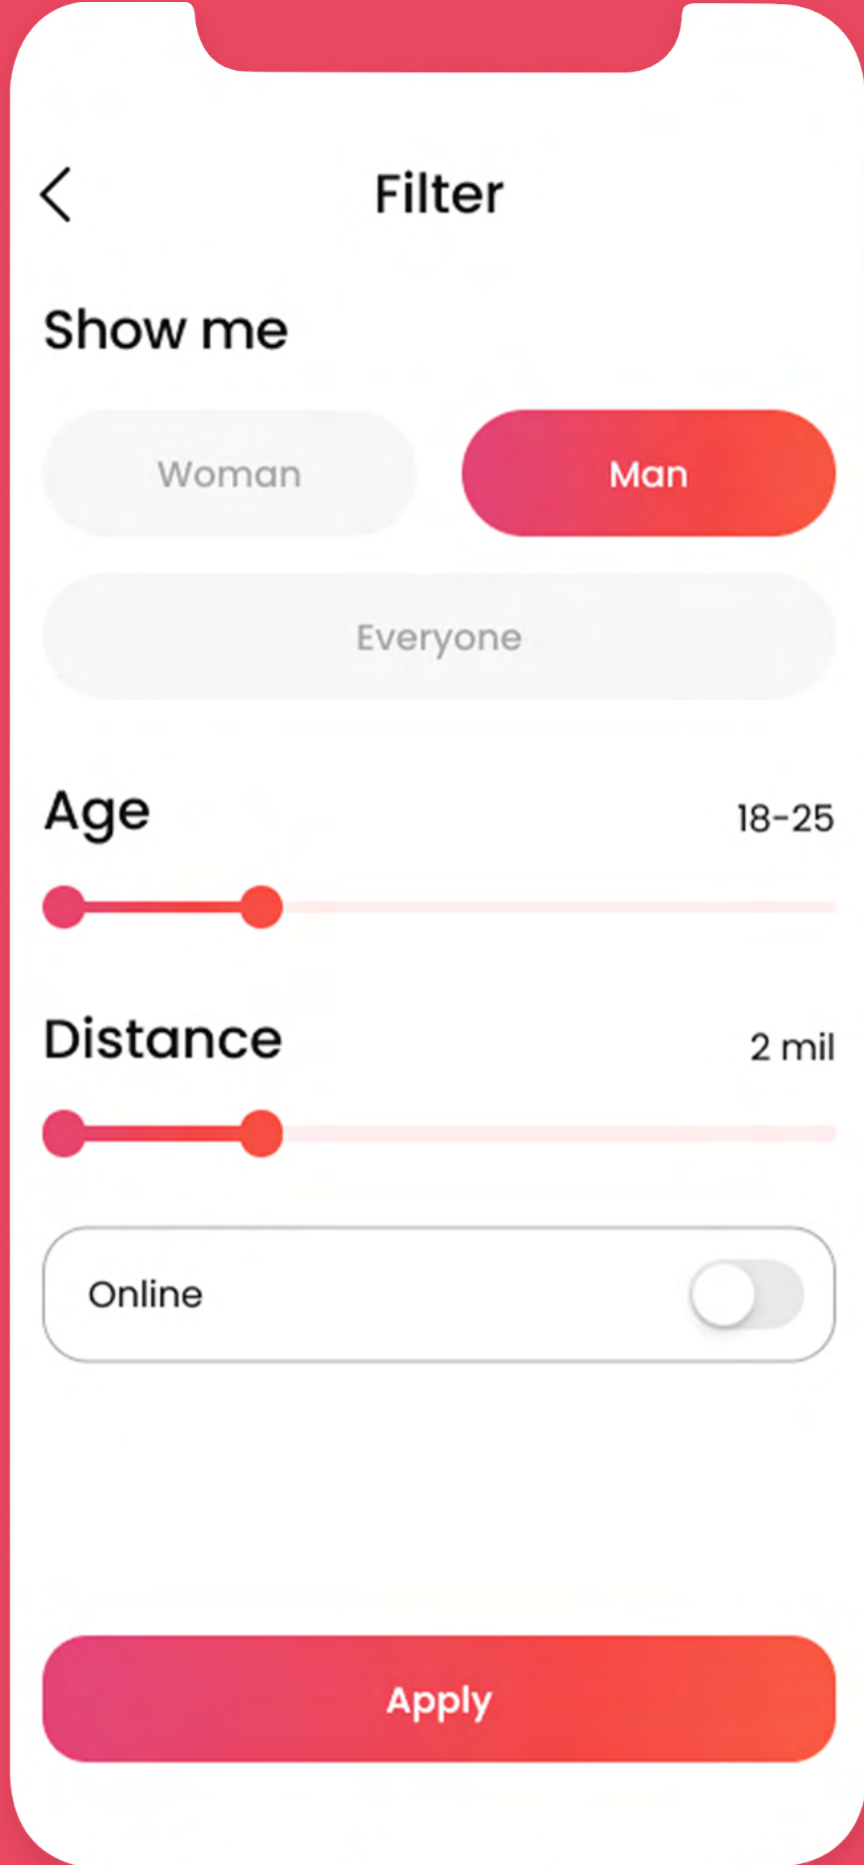

Profile creation

The profile creation section of this app is an essential component of the user experience, allowing people to showcase their personalities, interests, and preferences through a series of forms and prompts. They should fill in the fields with information such as personal data, interests and indicate what are they looking for.

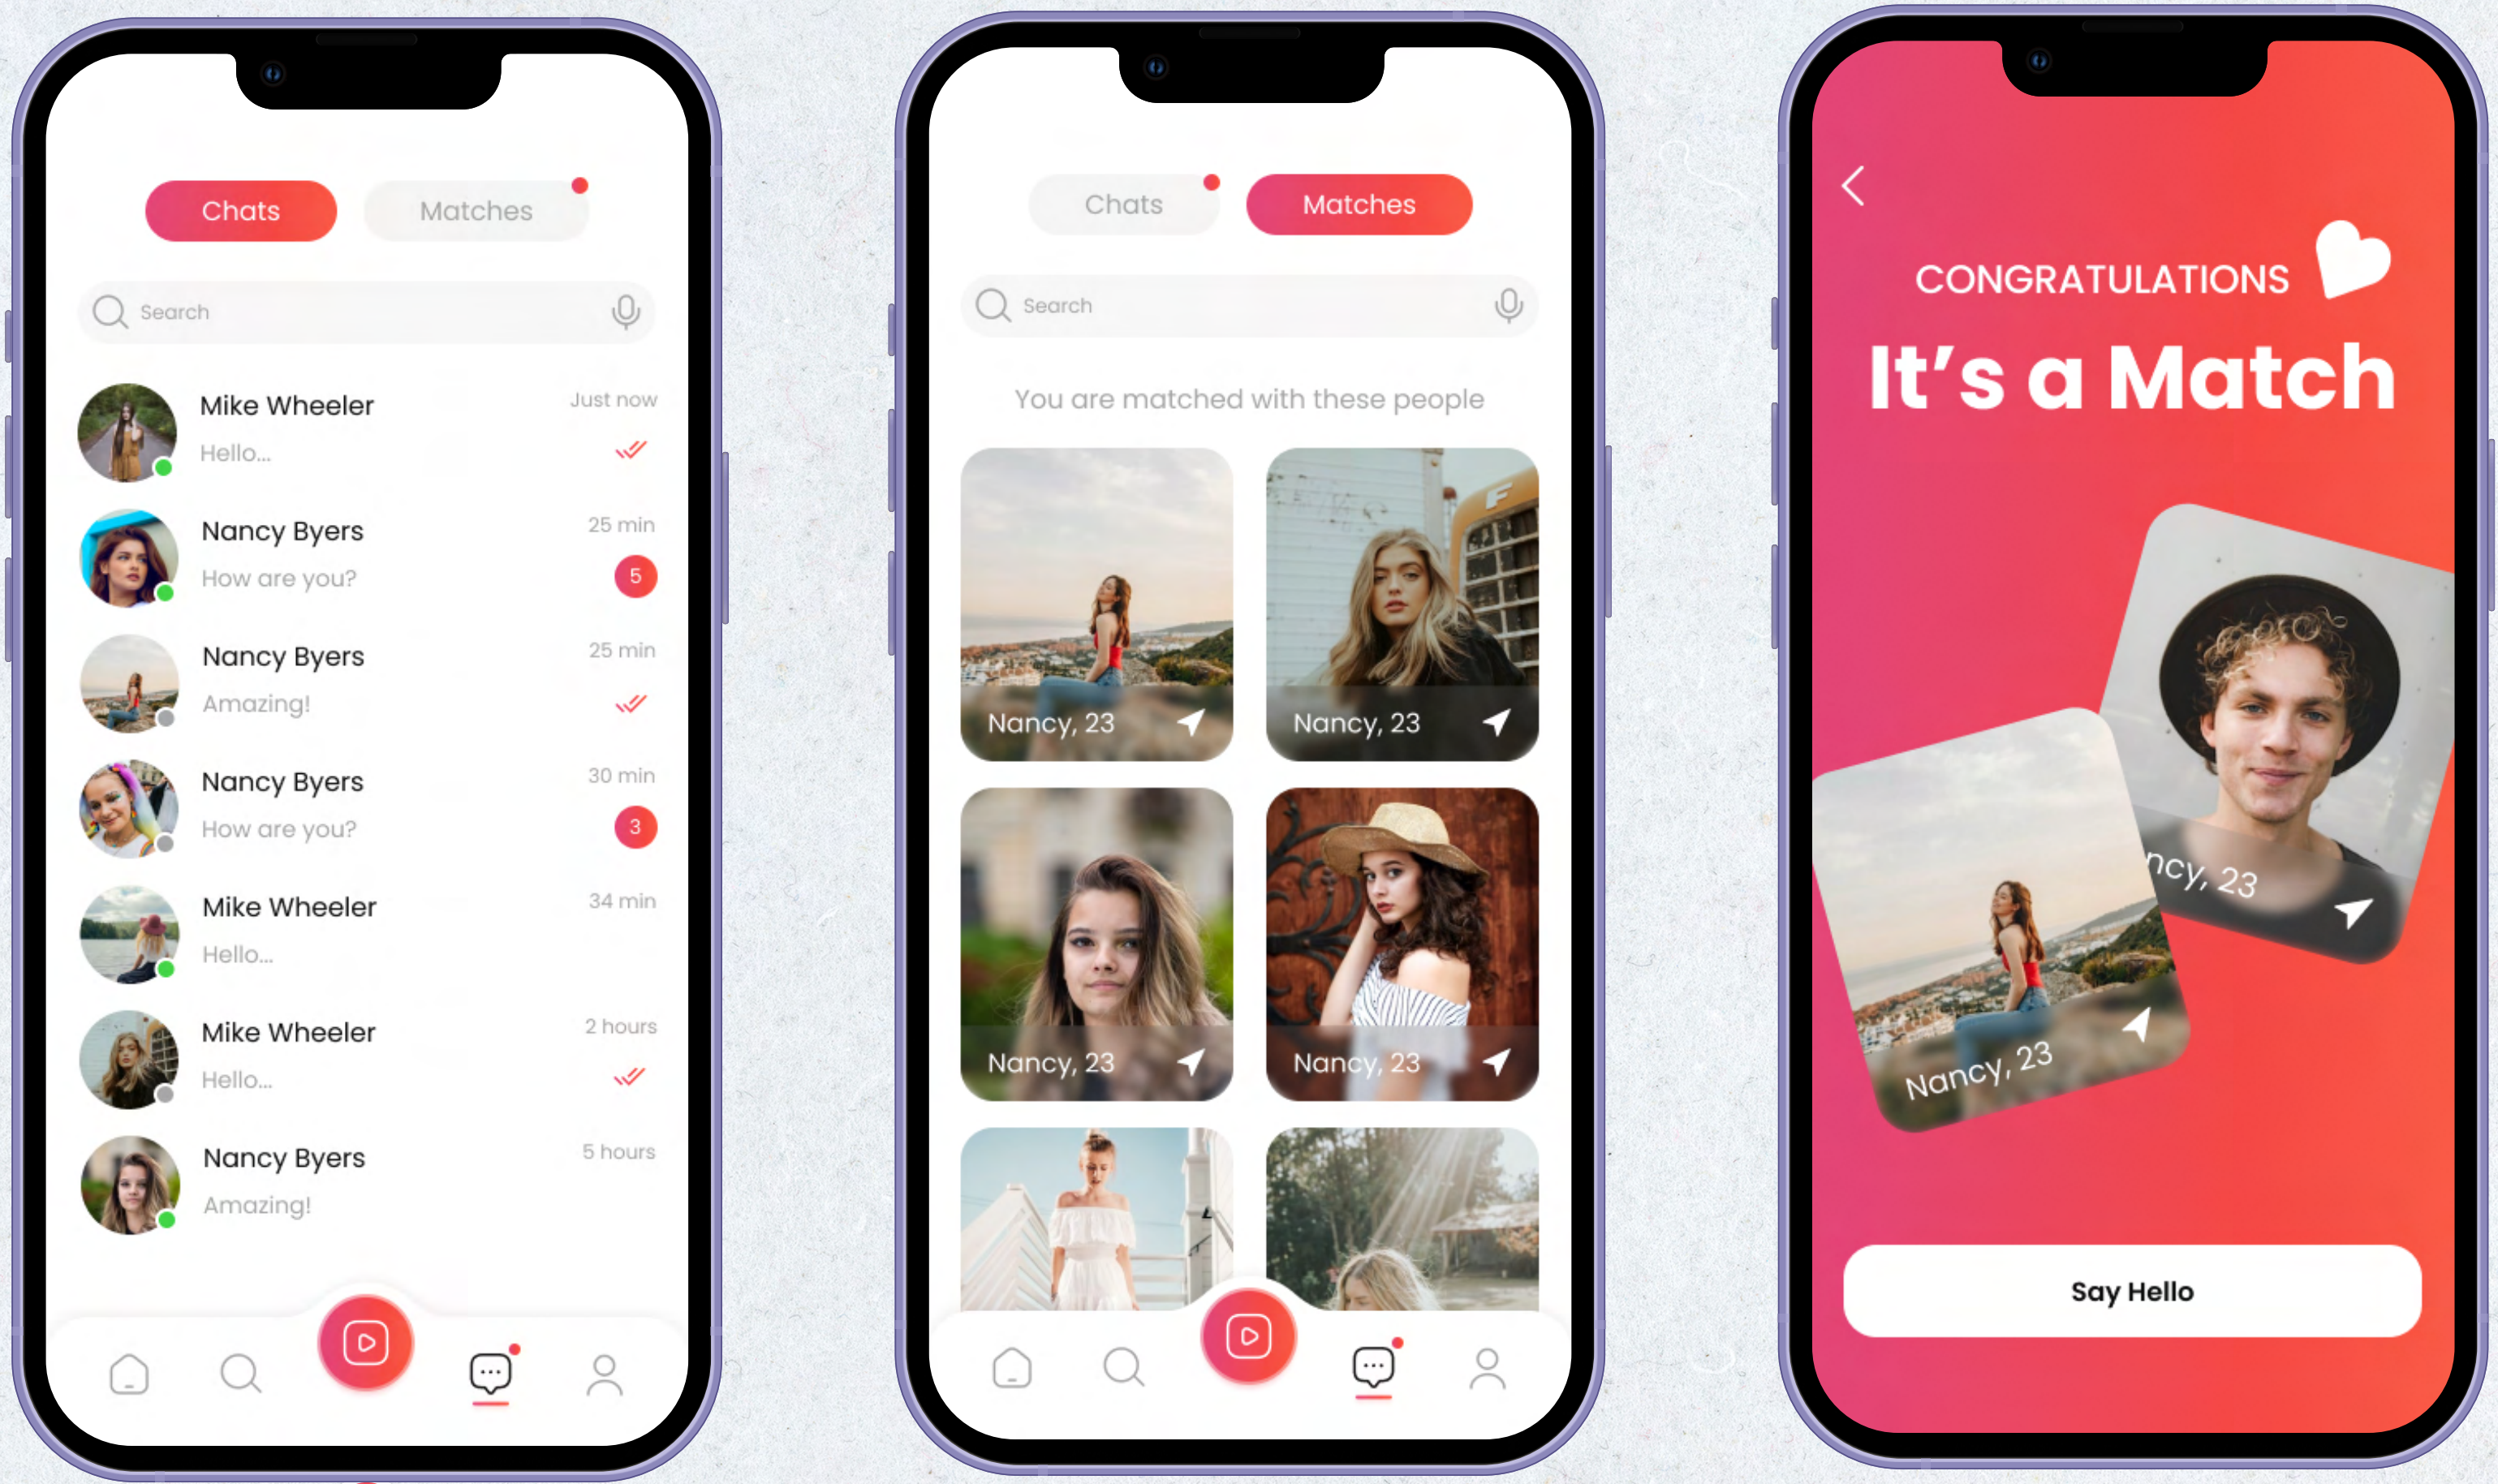

Home screen

The home screen of this app is designed around a swipe-based interface, where users can easily browse through potential matches by swiping left or right based on their interest. if you scroll down, you can see more information about the person.

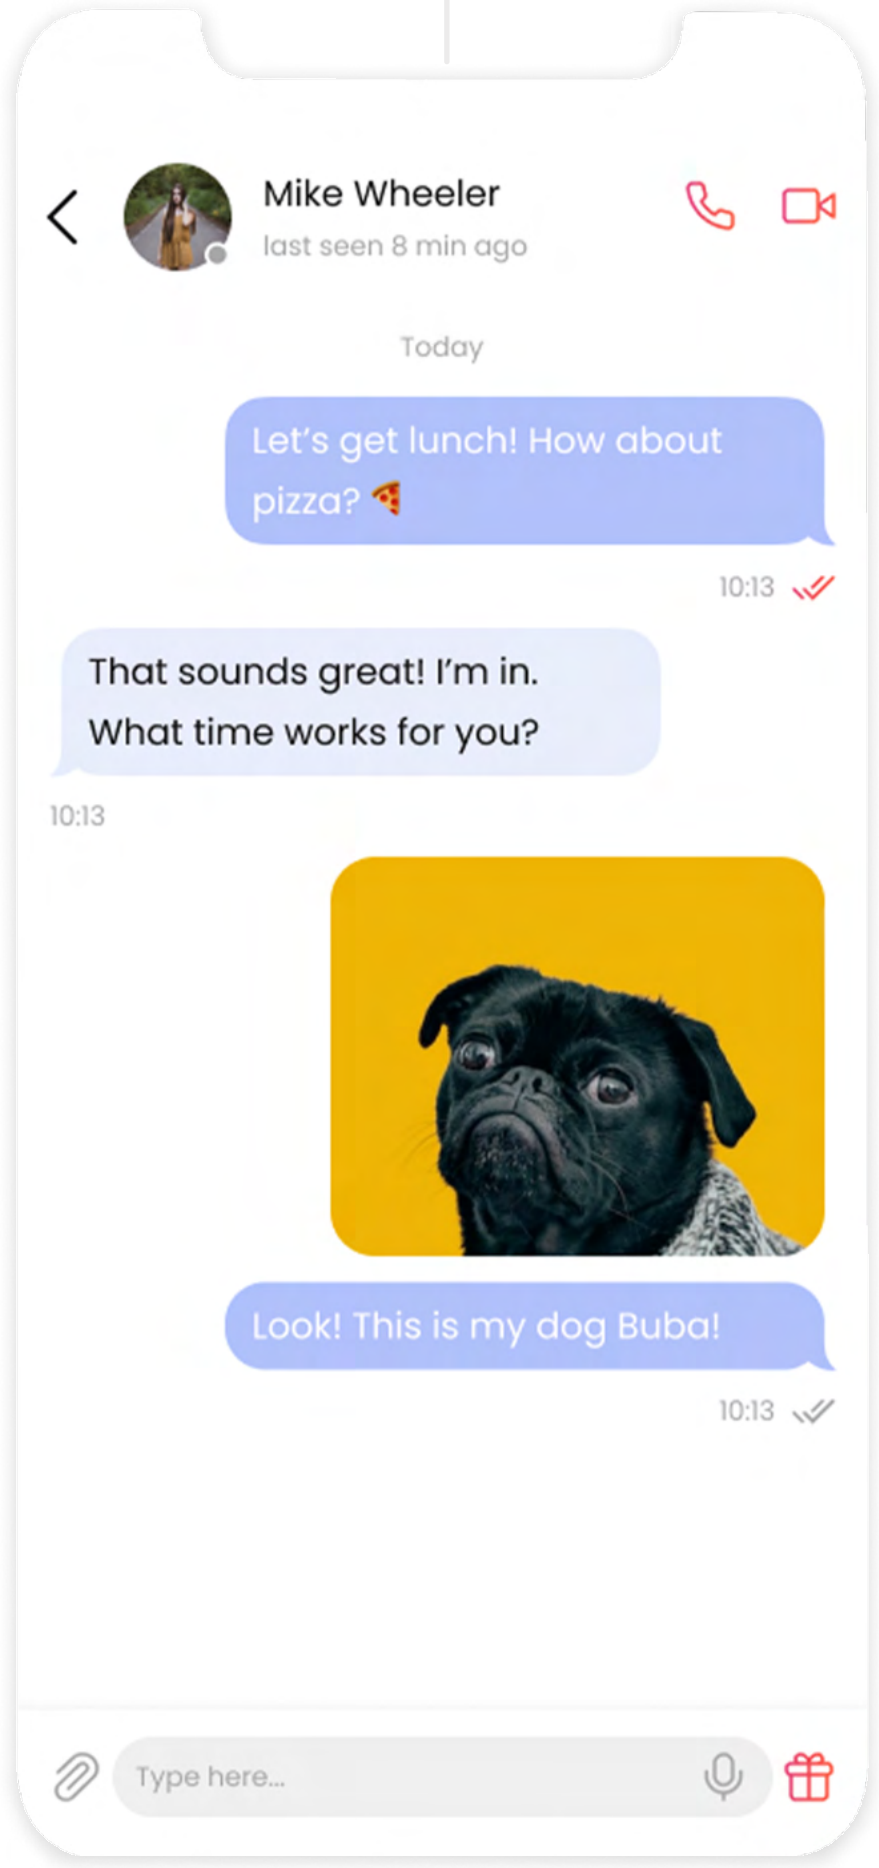

Chats & Matches

The chats and matches section of this app is where users can engage in conversation with their matches. In the chats tab, guys are required to pay for communication, while the matches tab provides a list of individuals with whom you've already established a mutual interest.

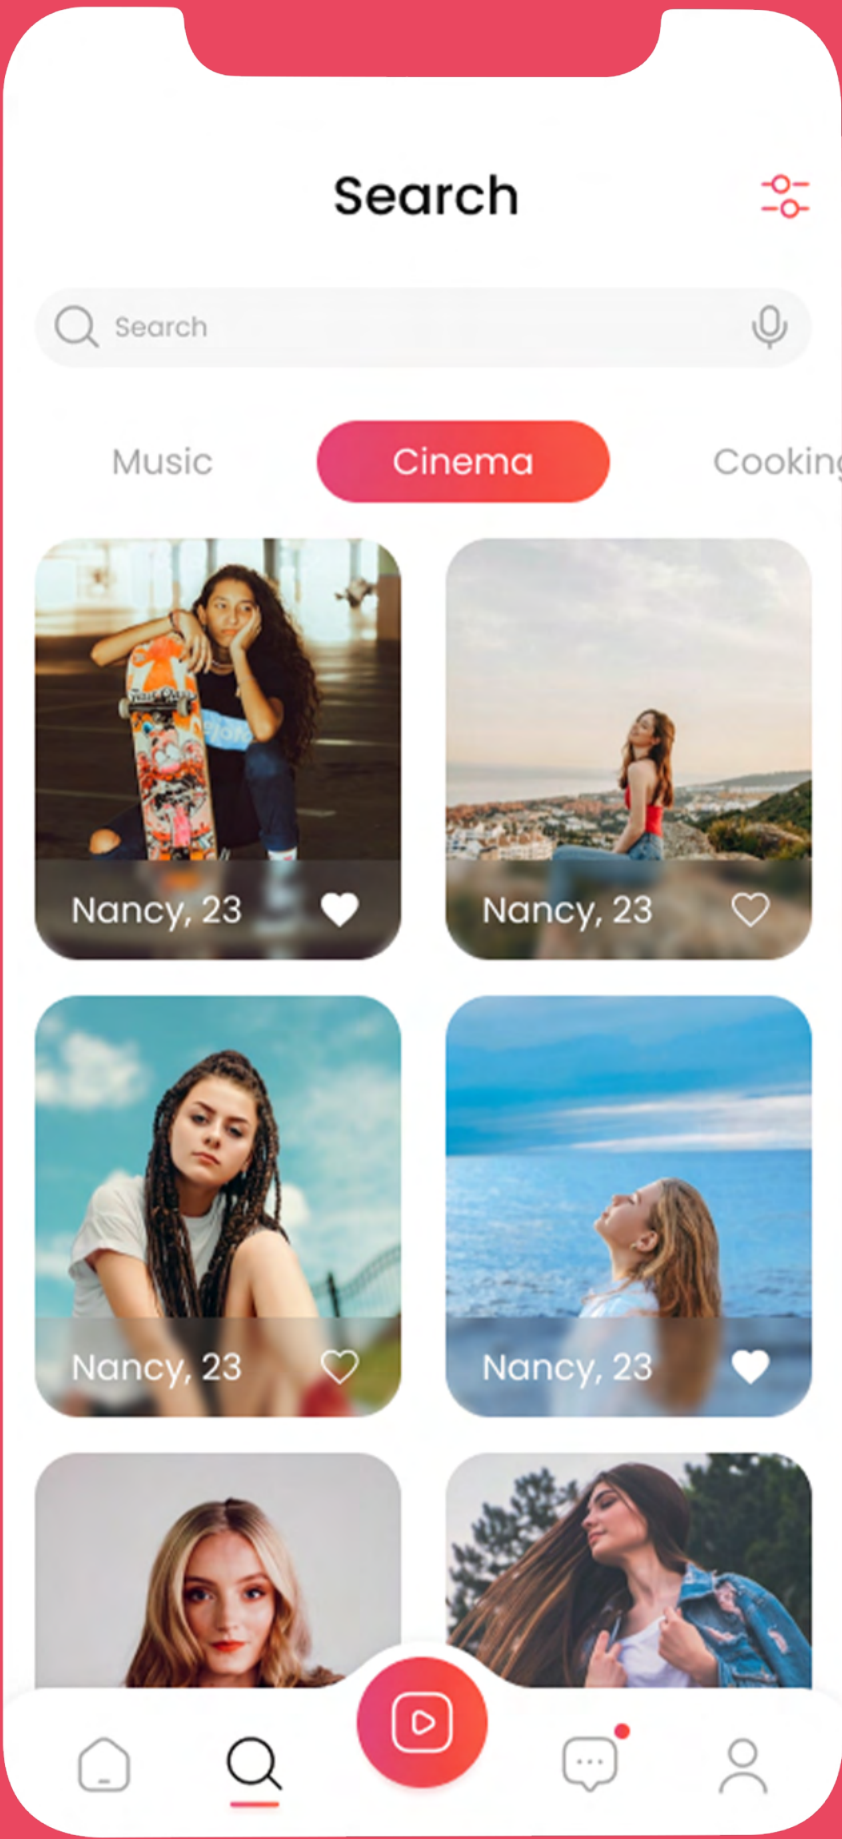

Chat & Calls

Users have the ability to communicate via text chat, voice calls, and video calls.

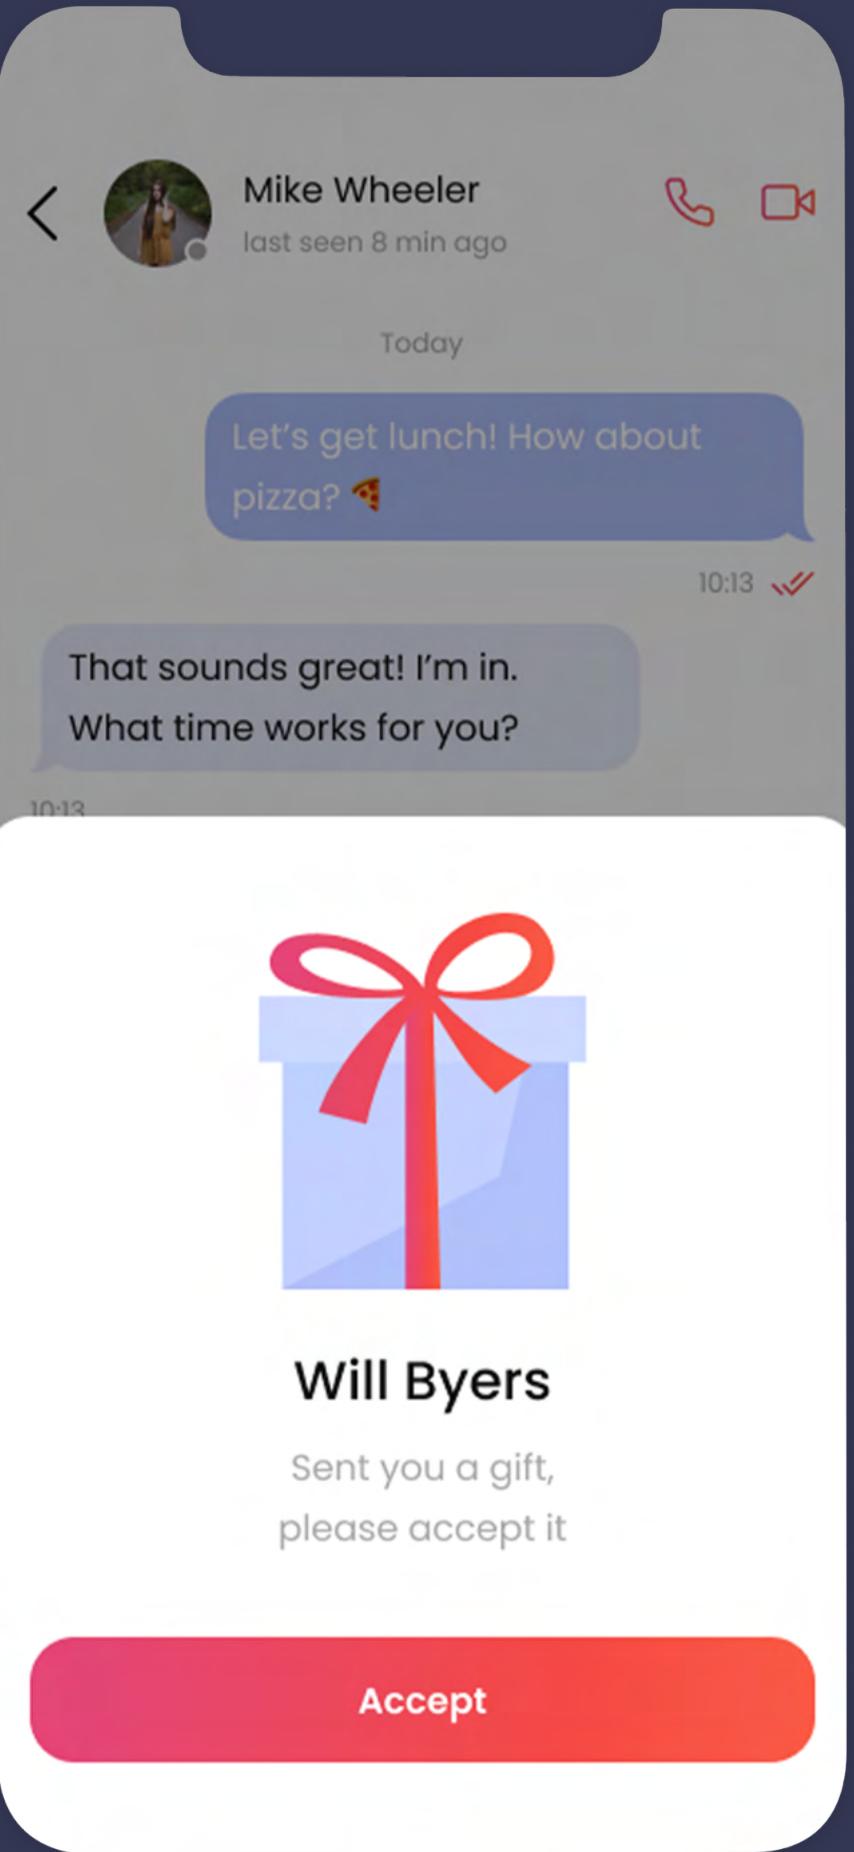

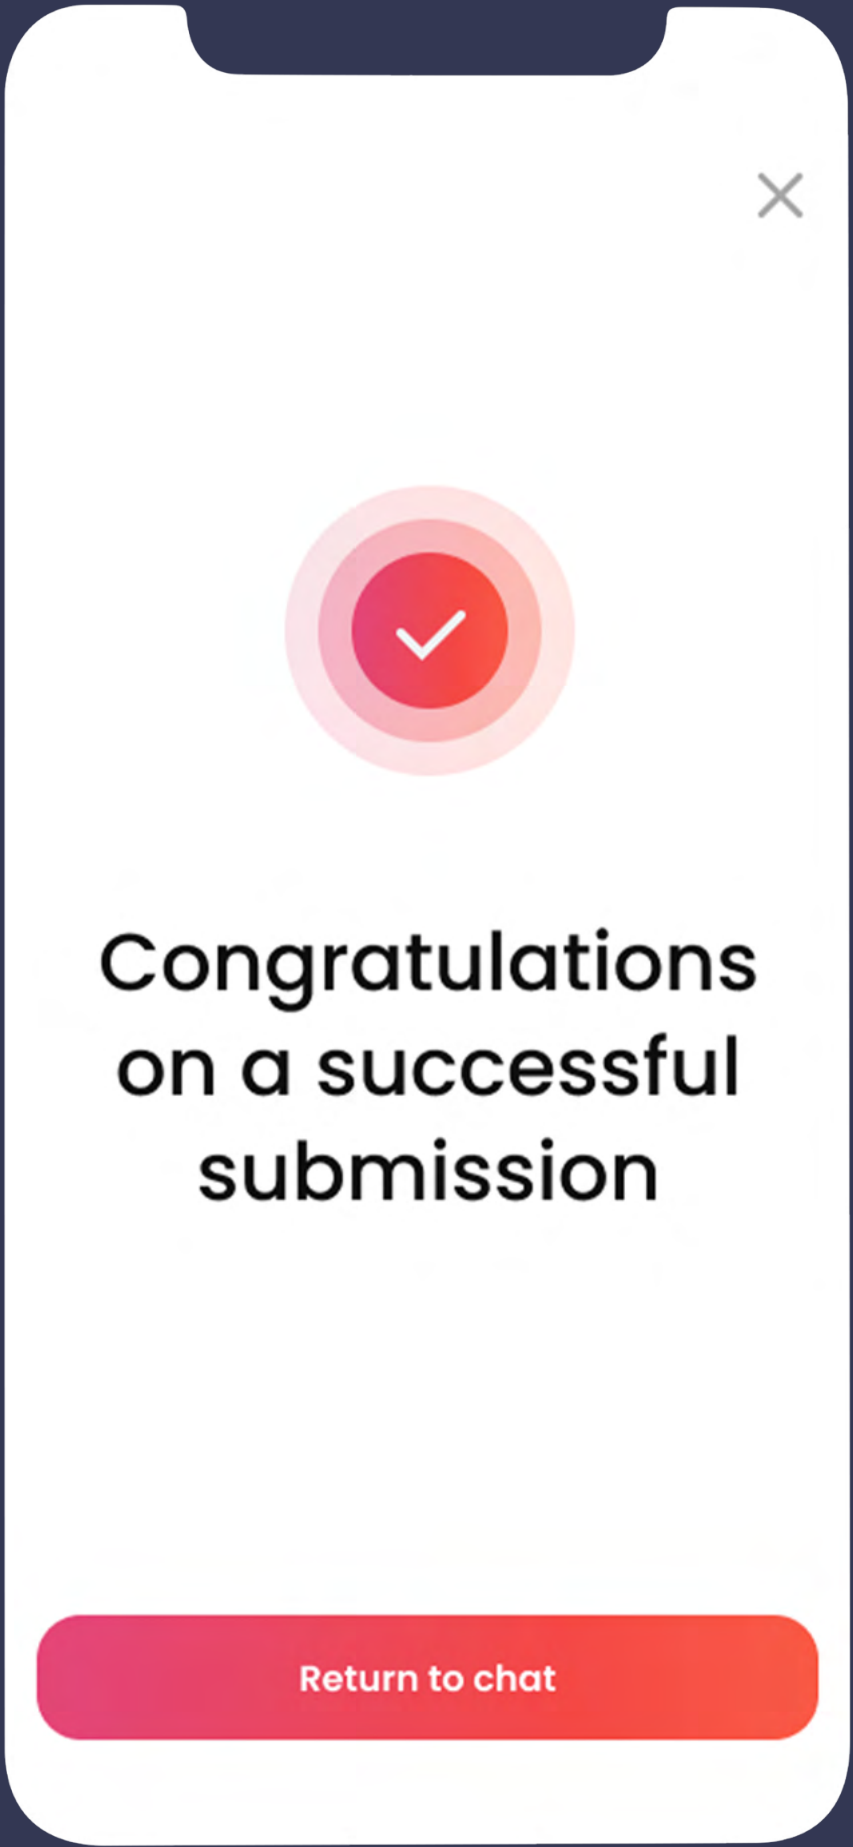

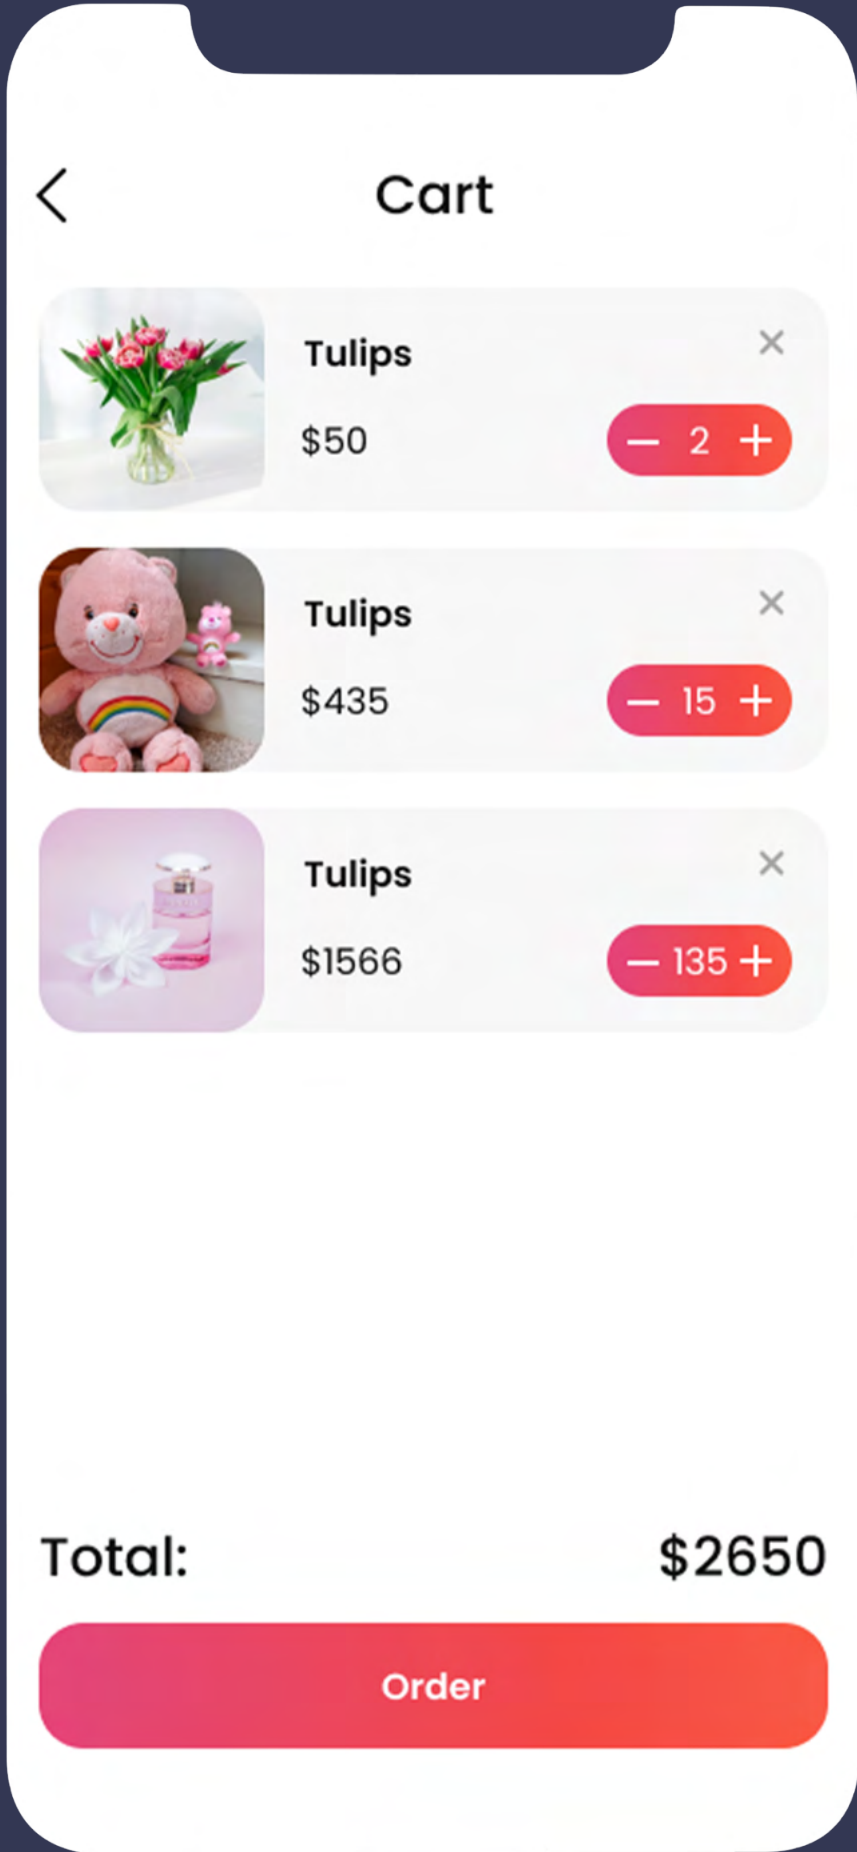

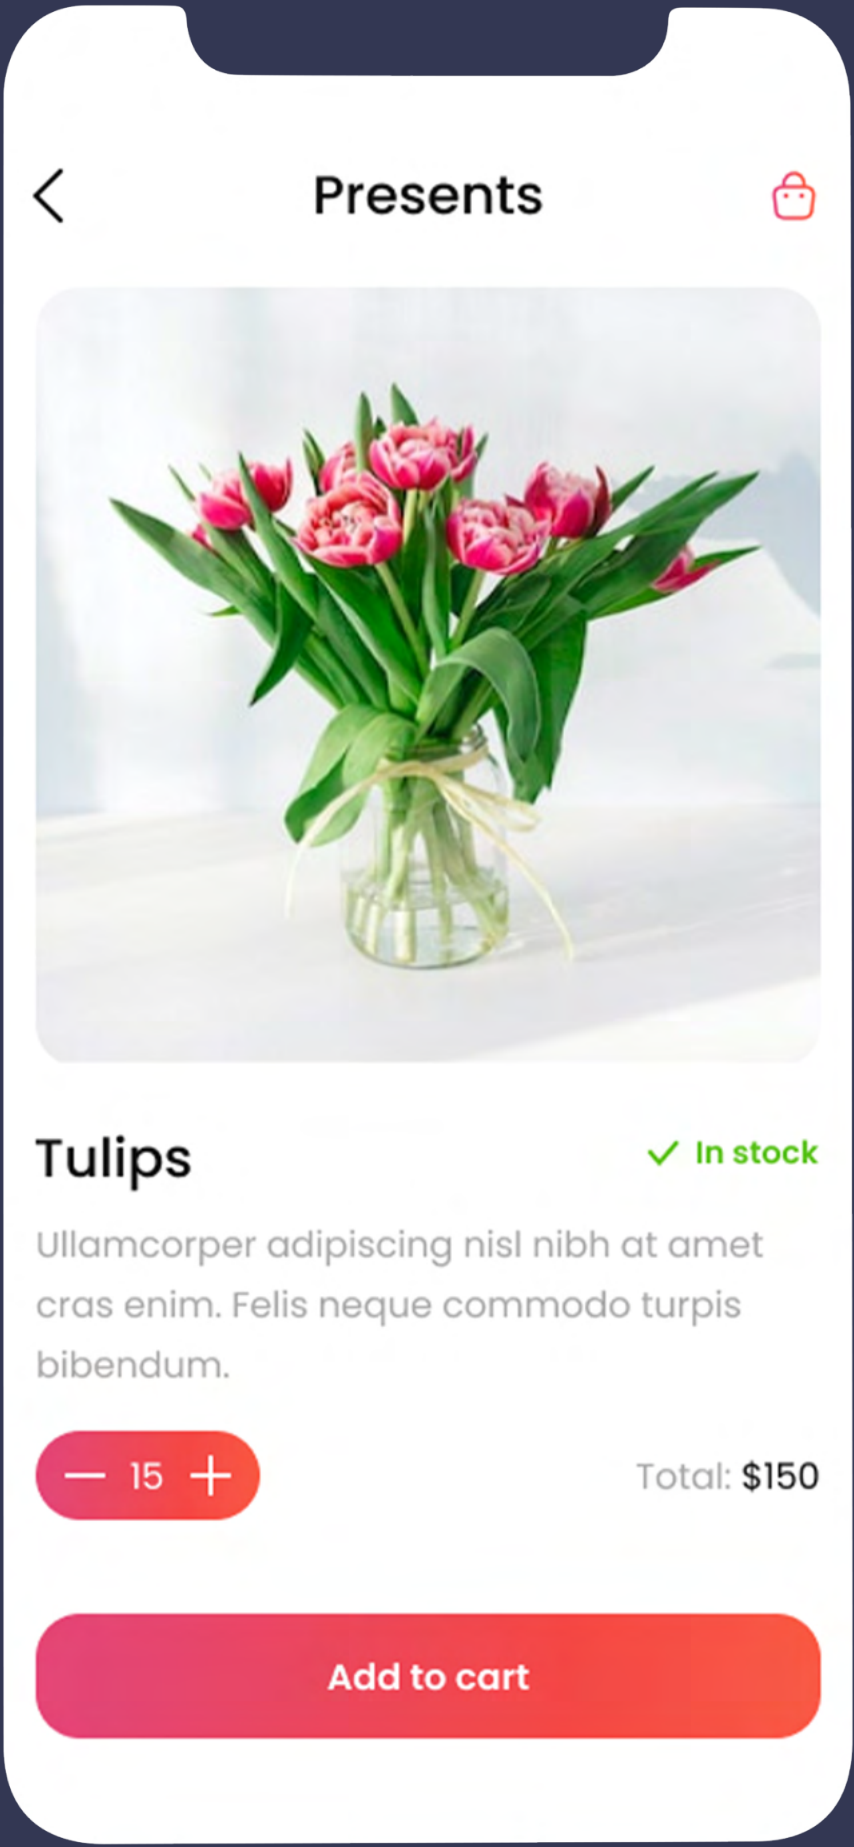

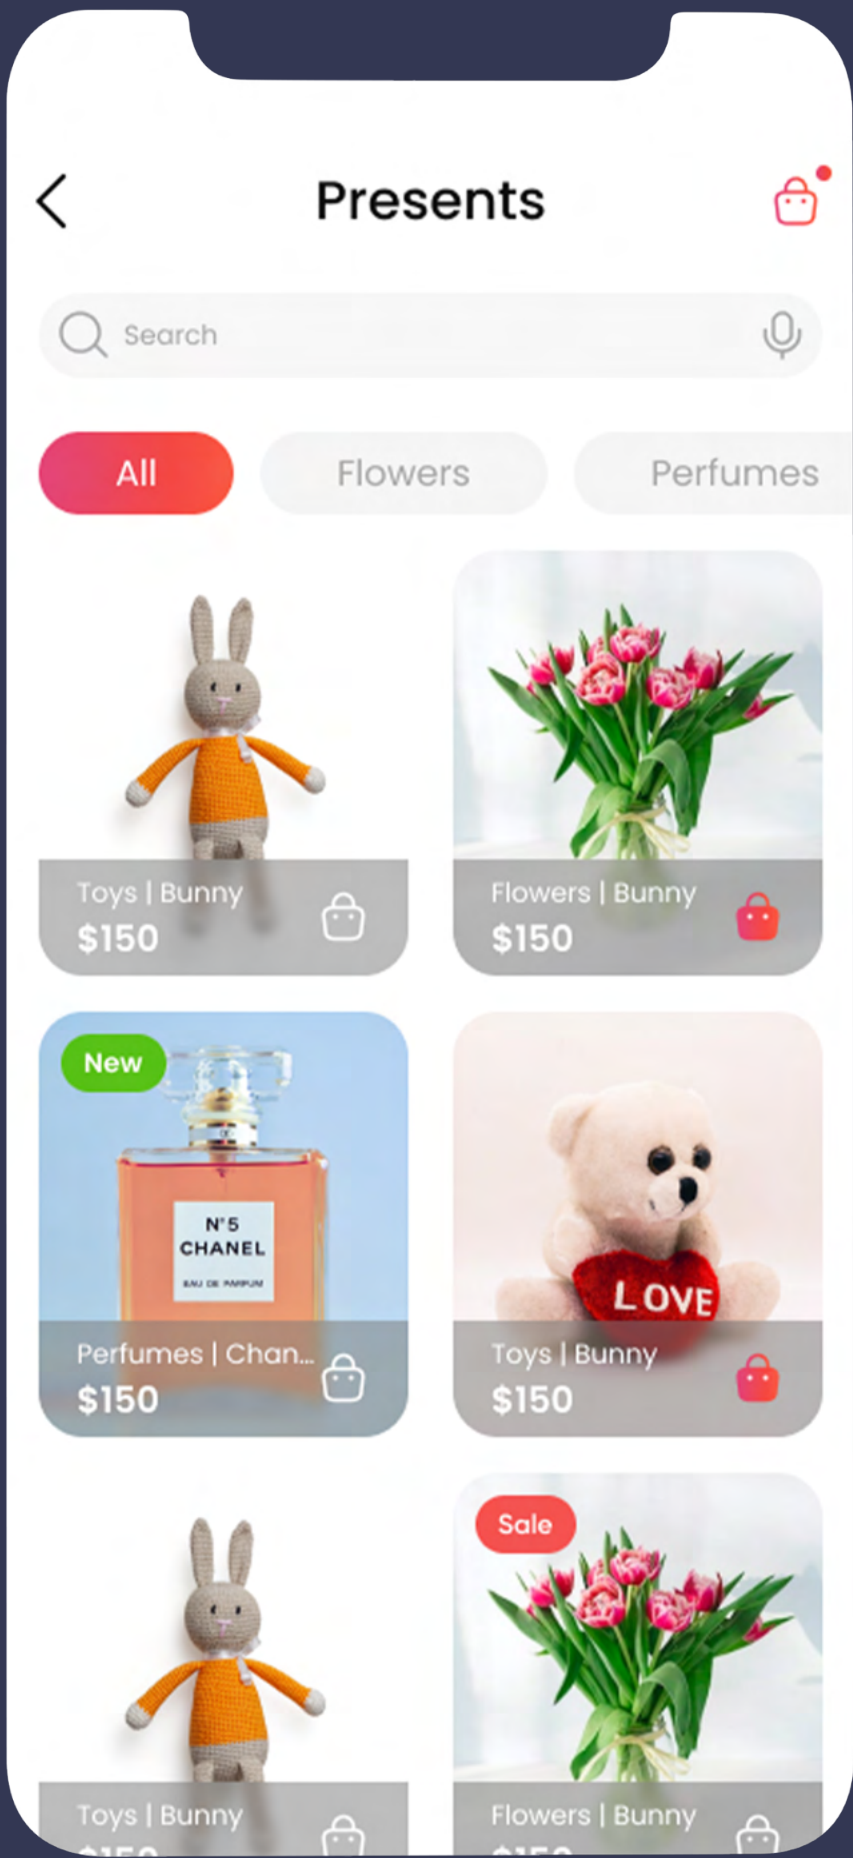

Search

The search allows users to browse through a pool of potential users with a variety of search criteria and filters including age, gender, location, and online status.

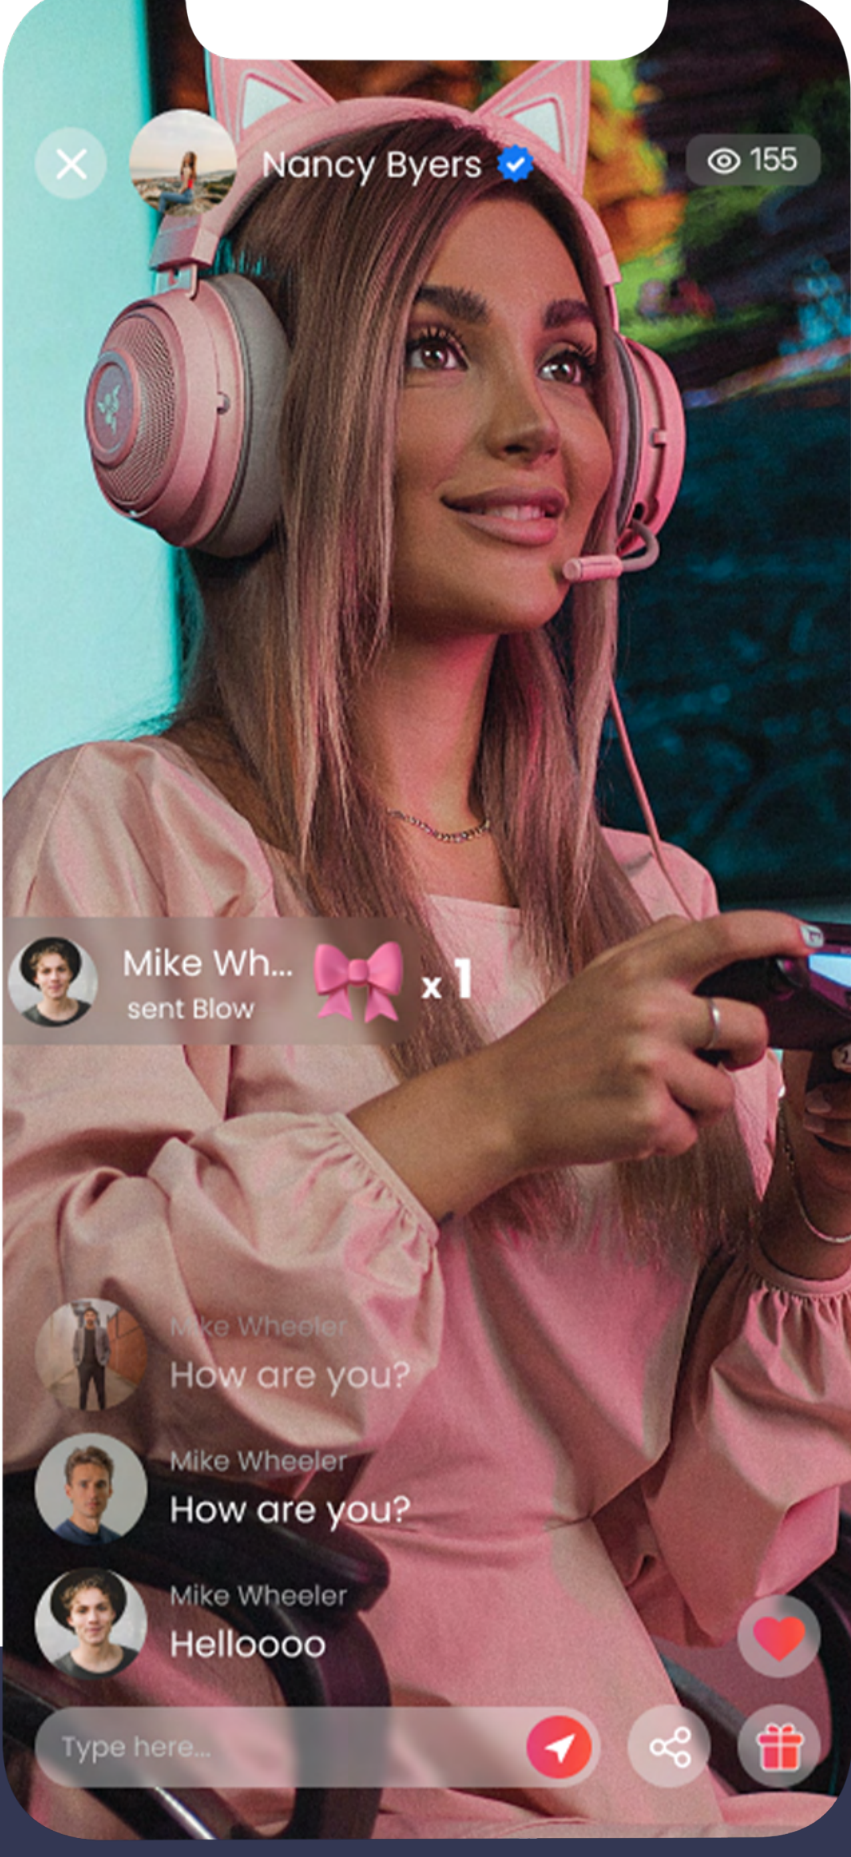

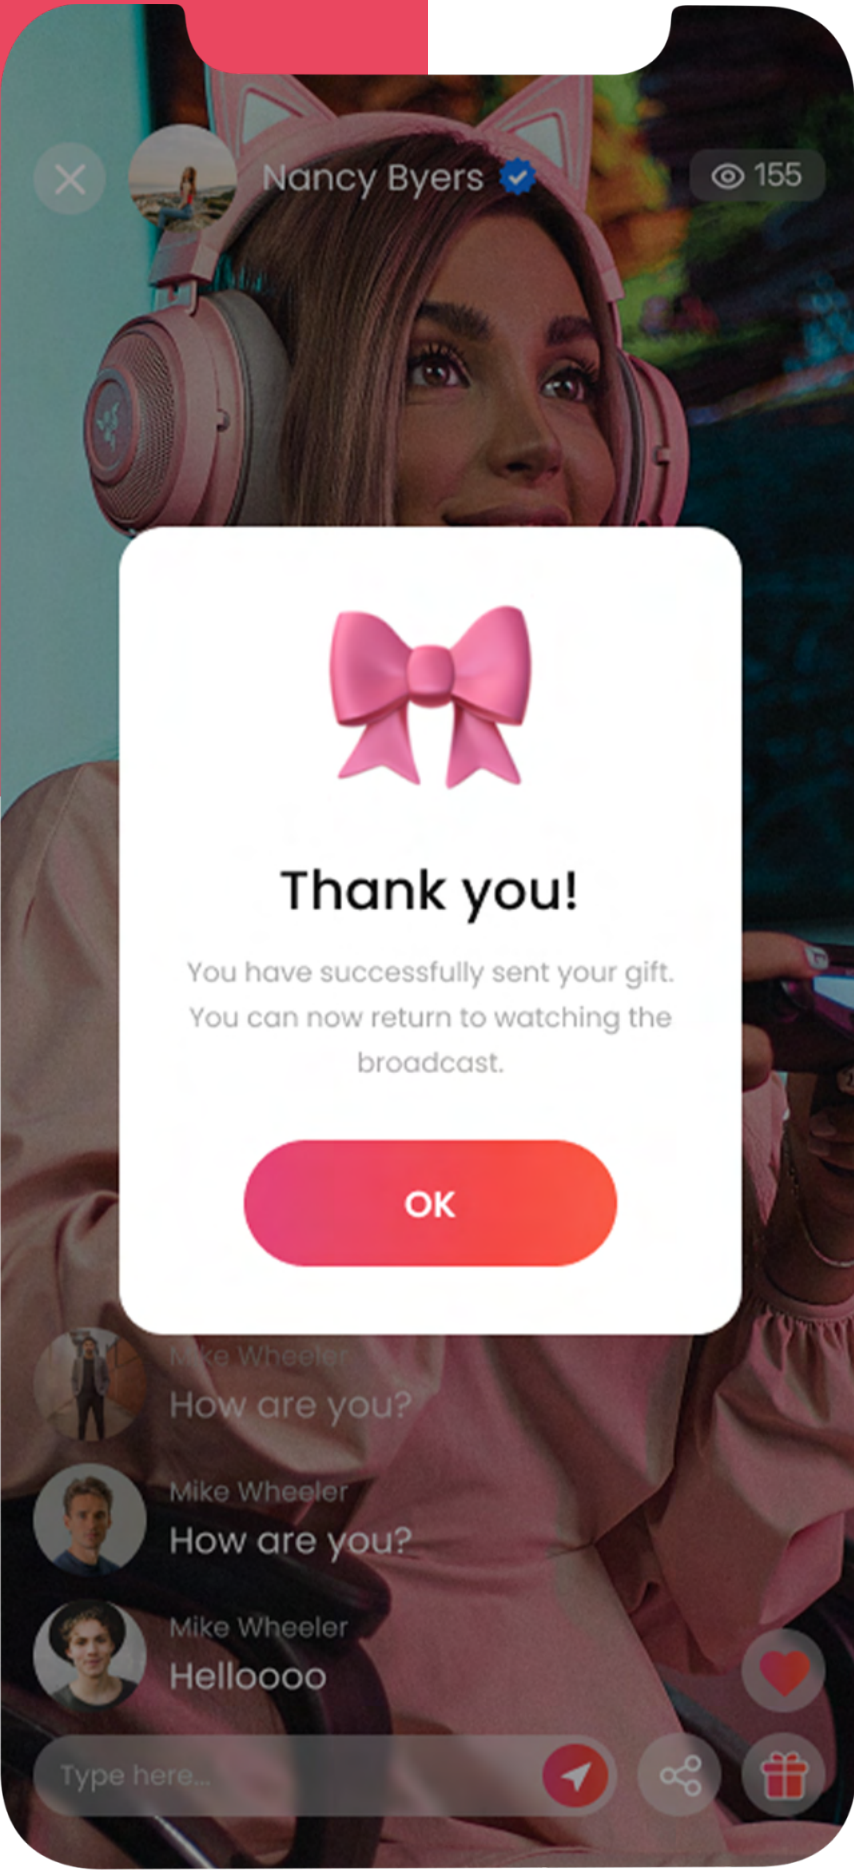

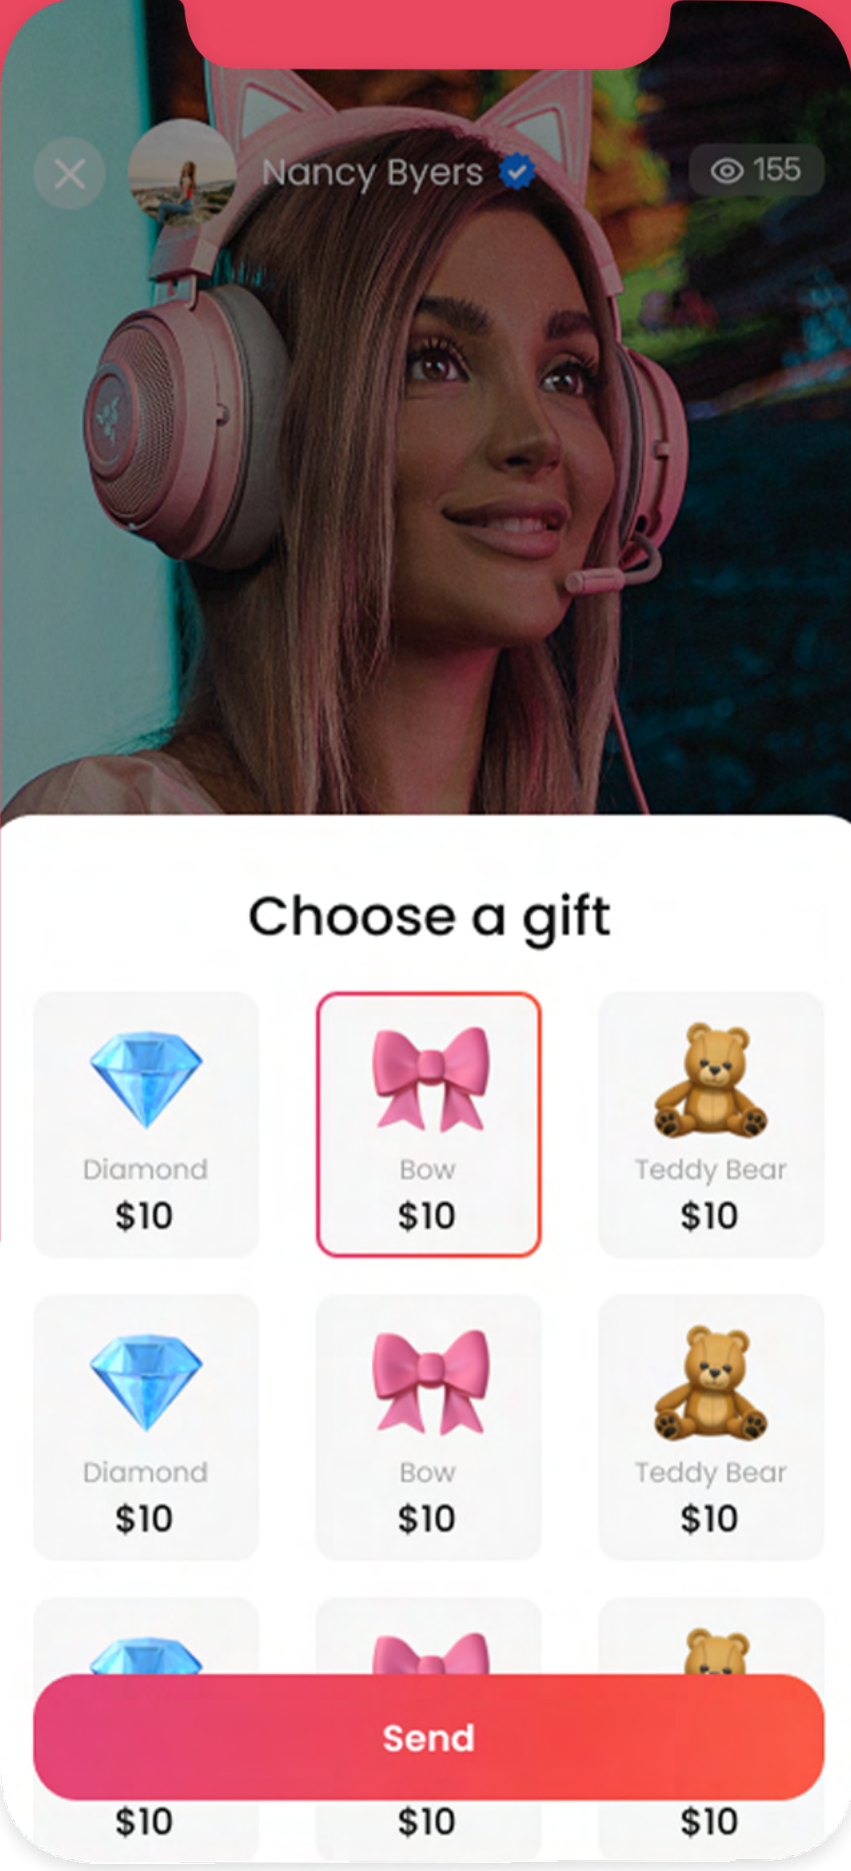

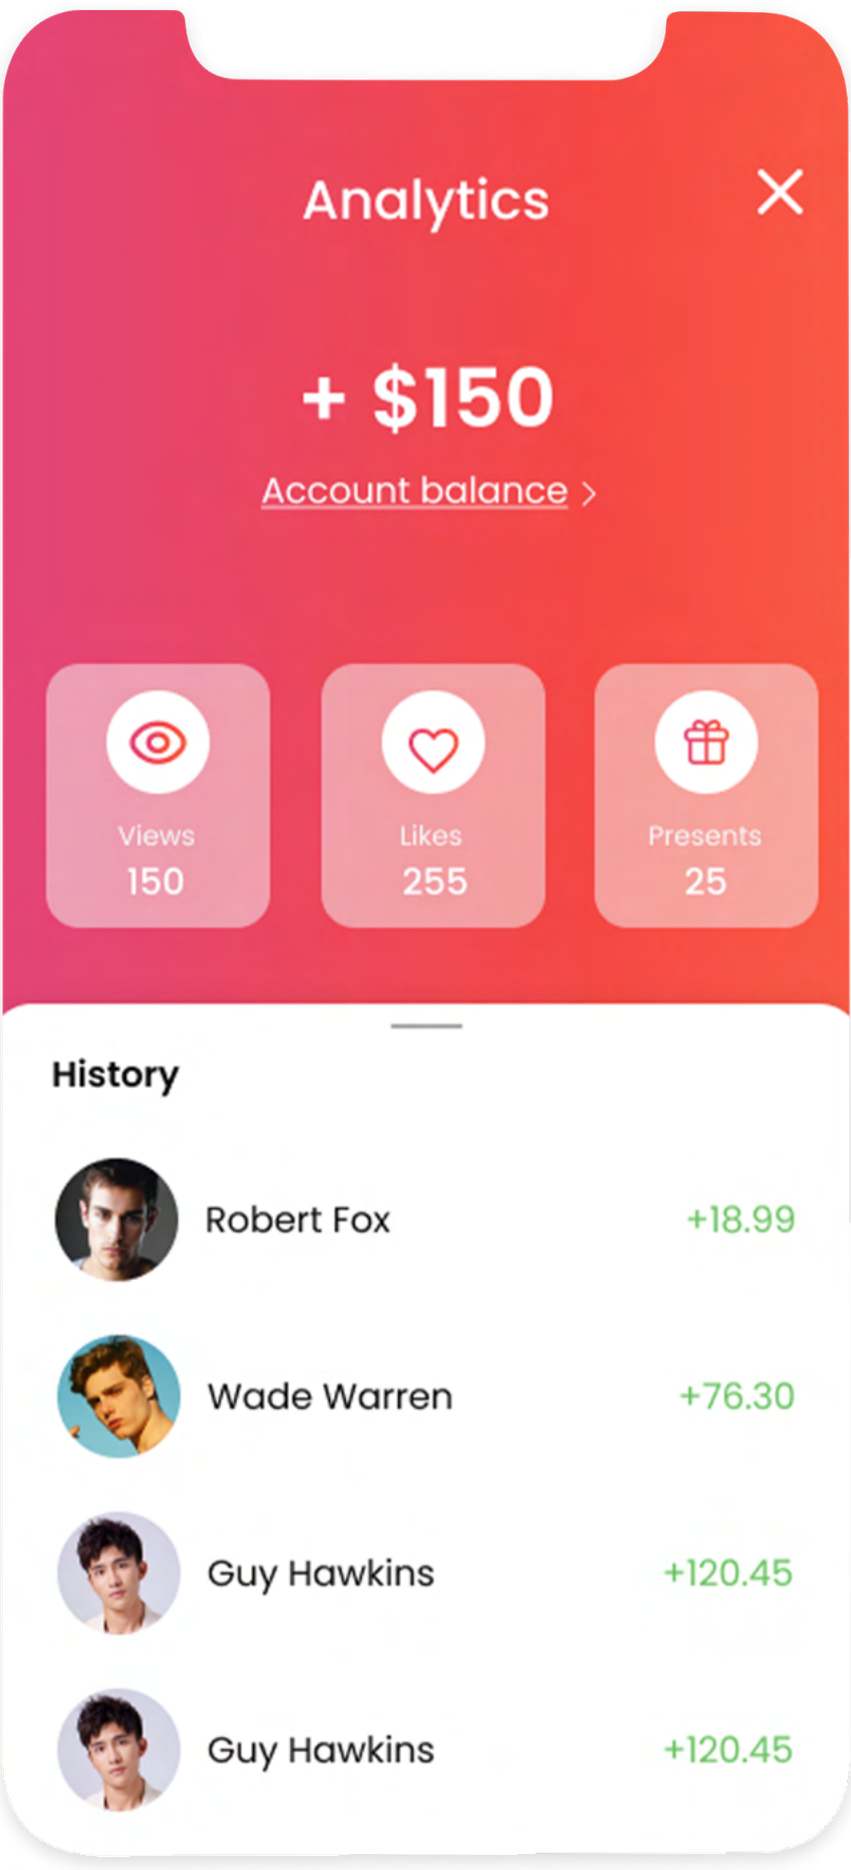

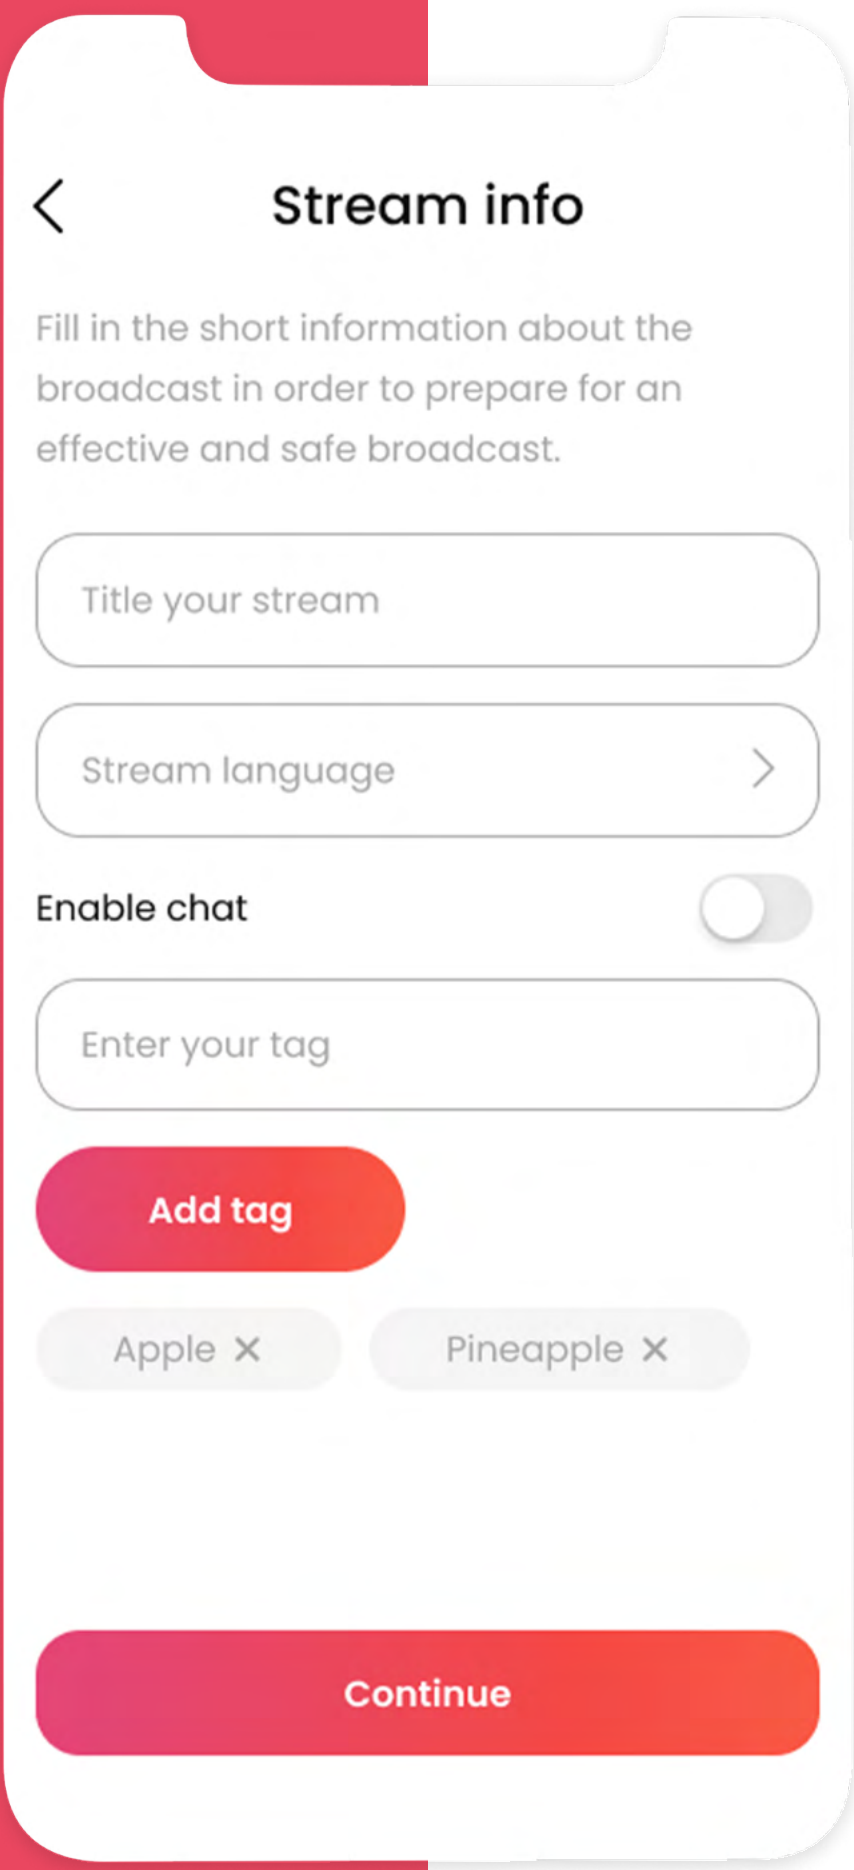

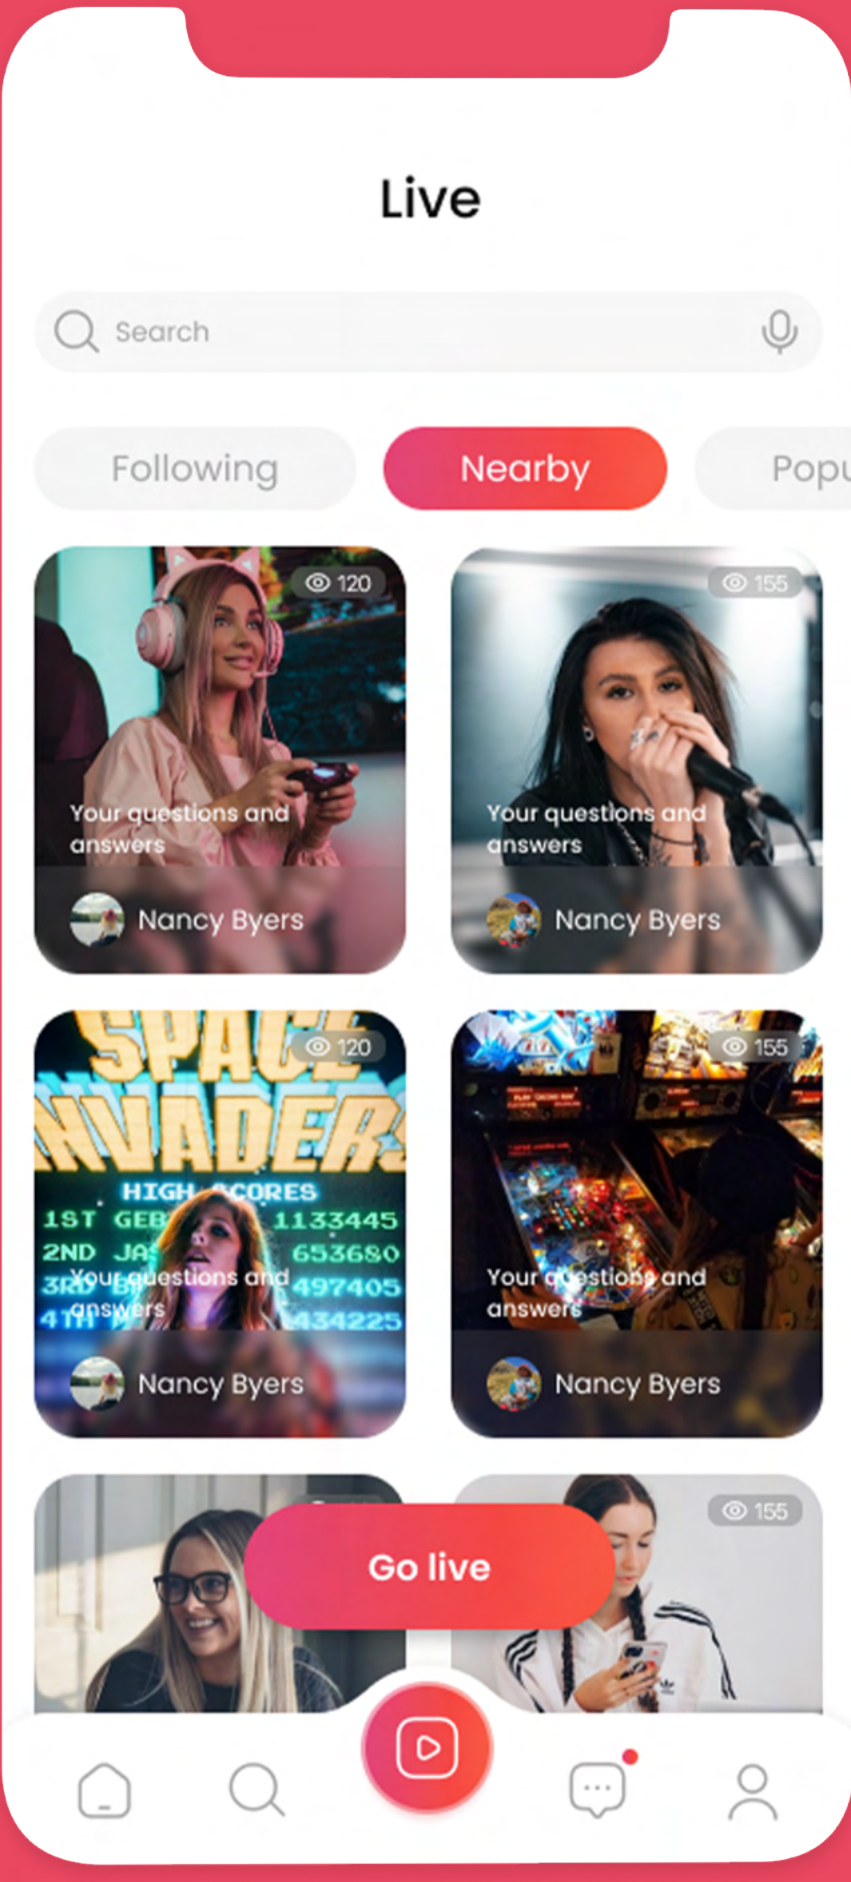

Gifts

From the chat guys can select from a range of gifts such as flowers, toys or sweets and send them to the girls they're chatting with, to make the conversation more exciting and enjoyable. It's a great way to show appreciation and build a stronger connection with your match.

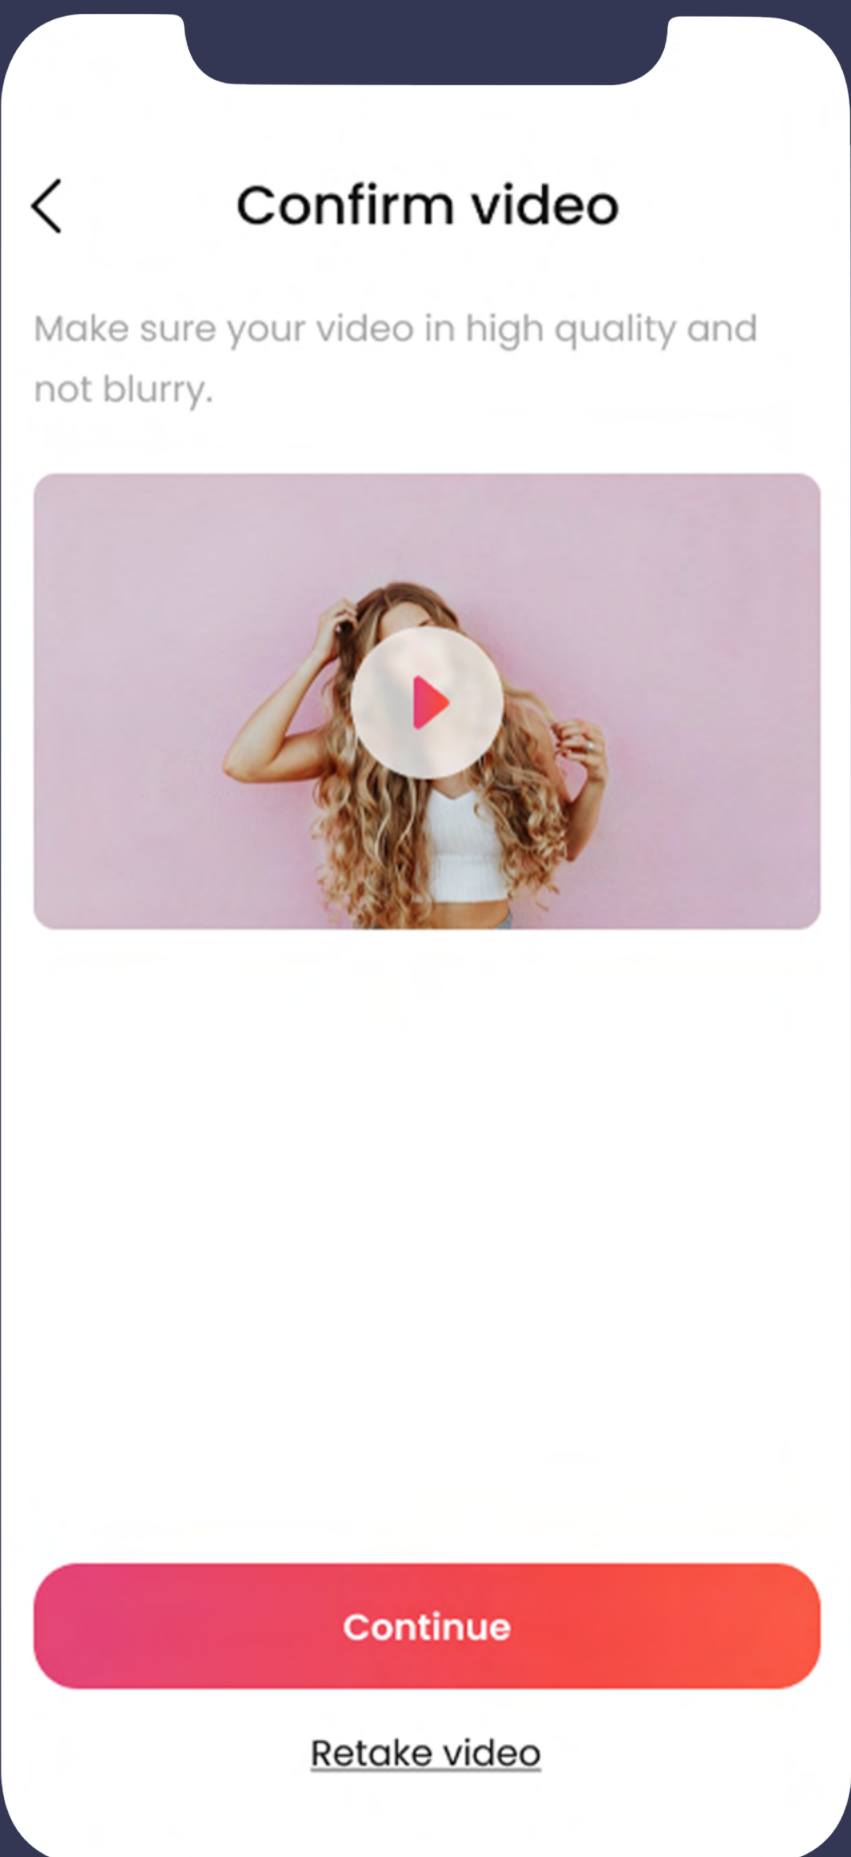

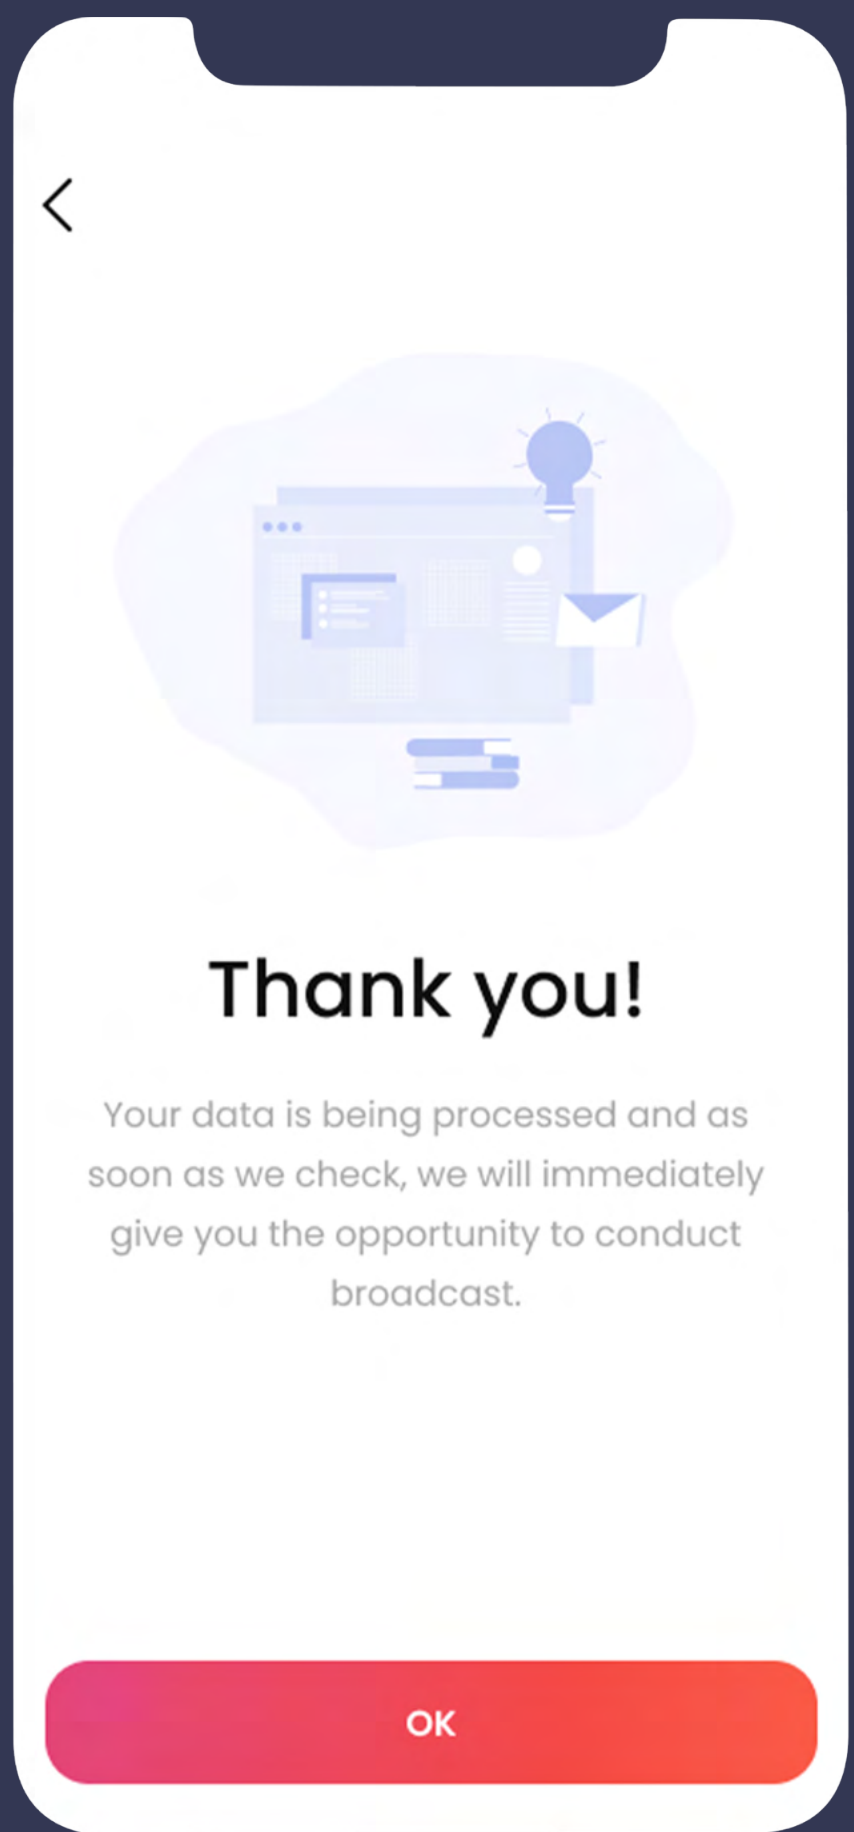

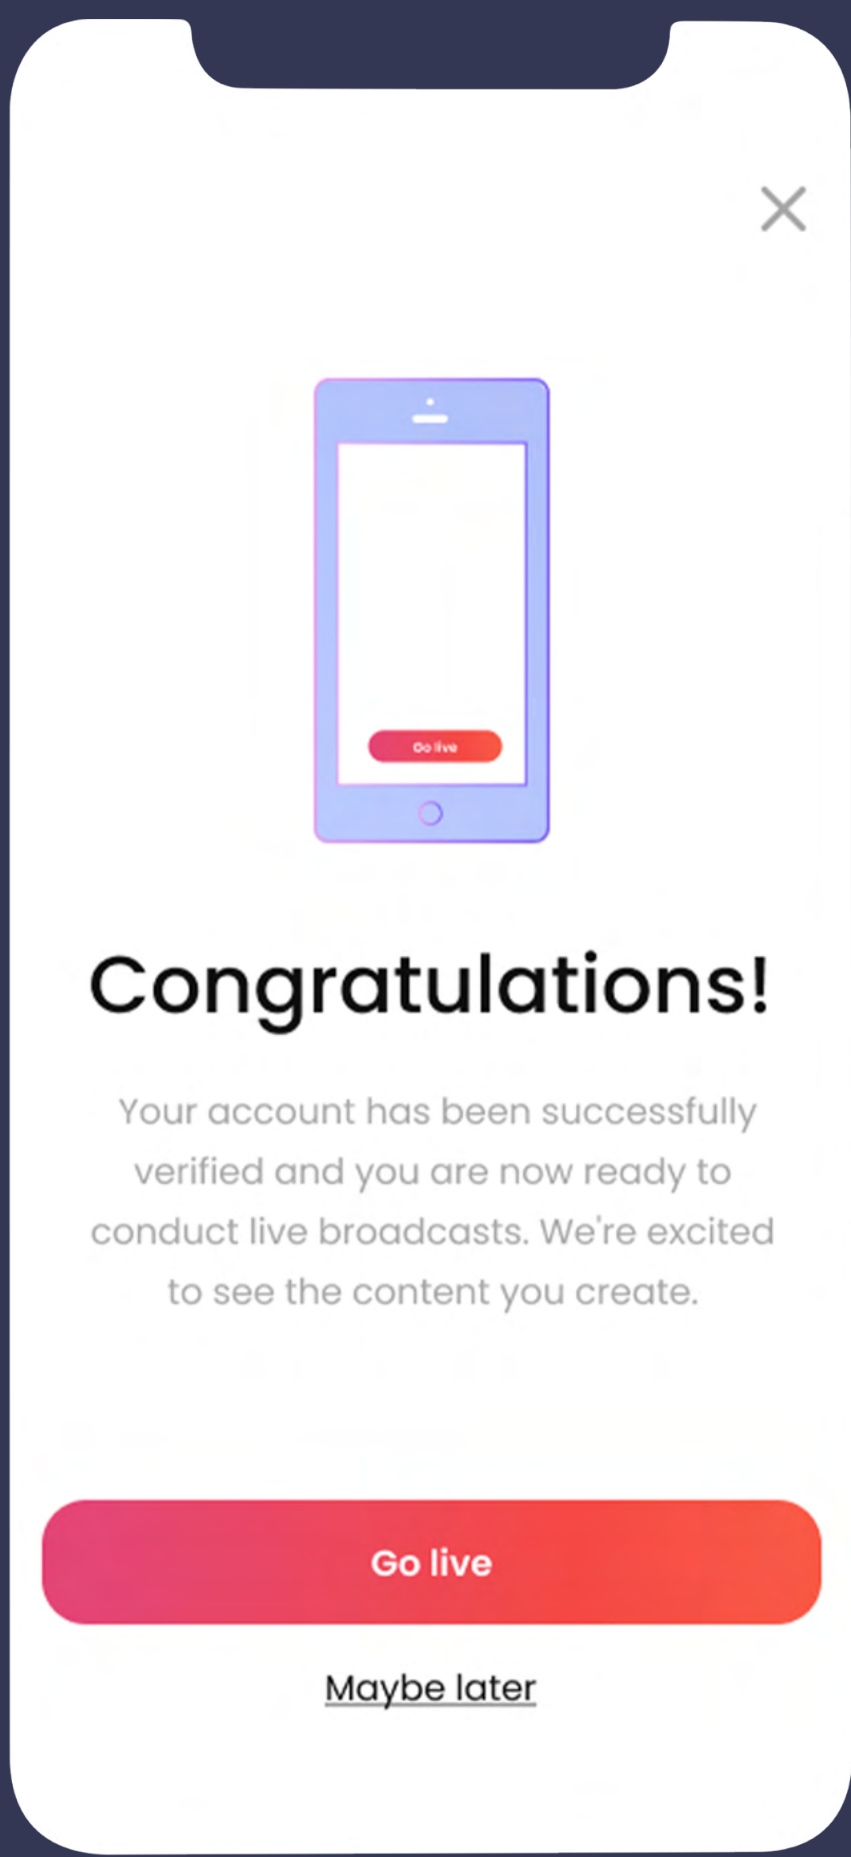

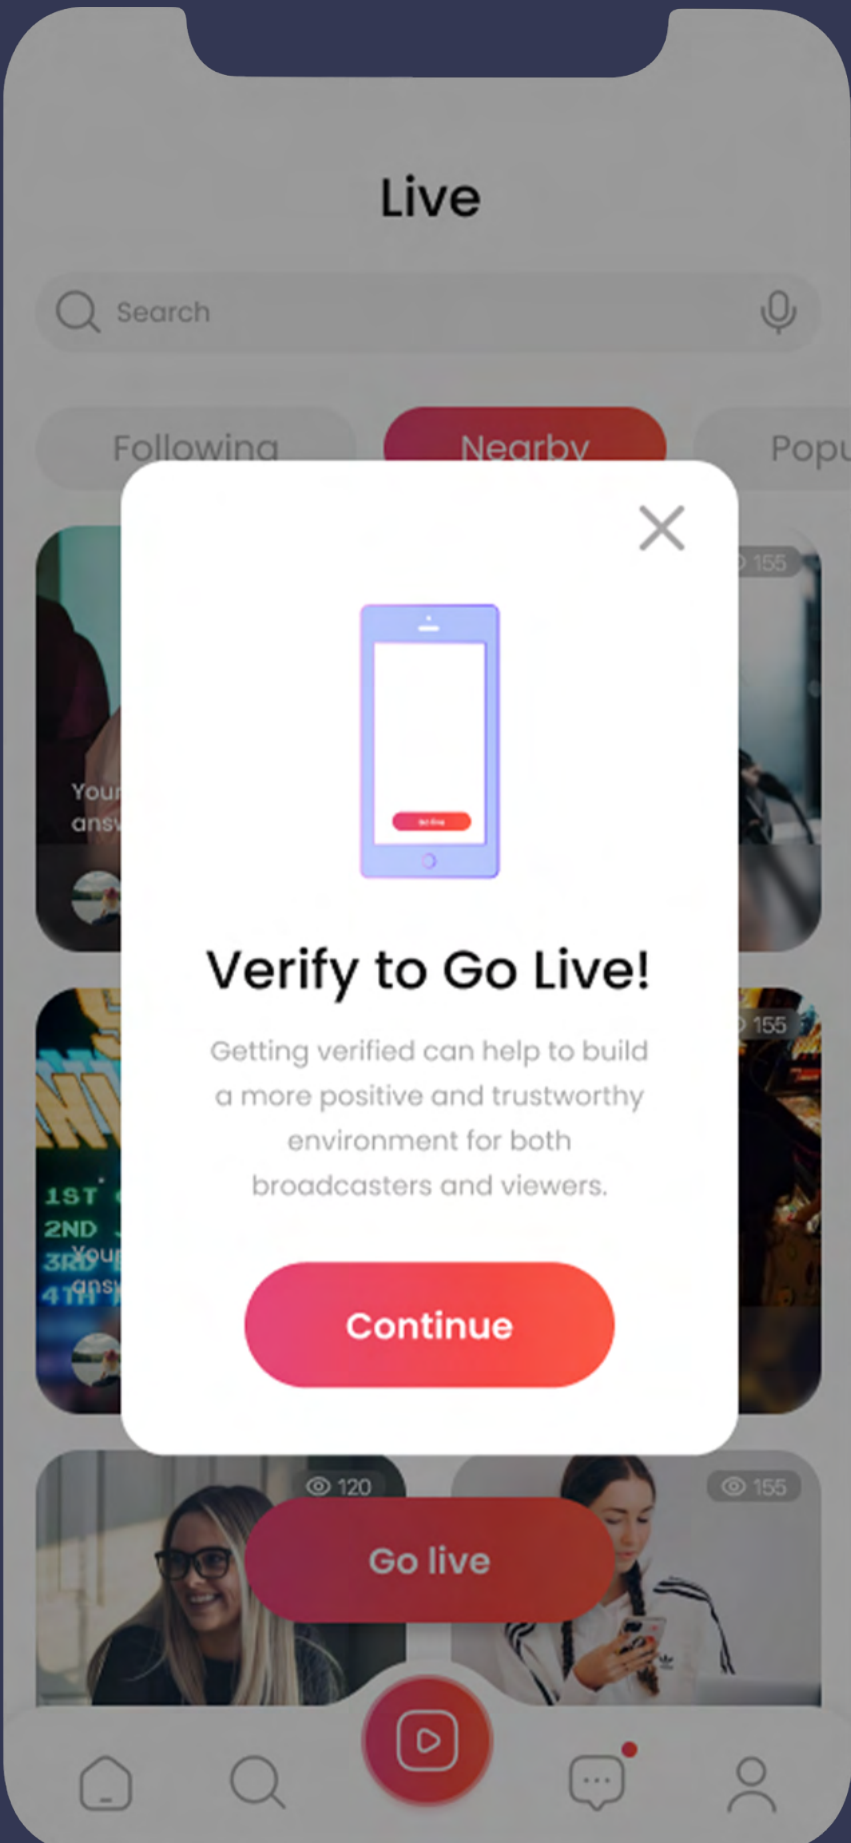

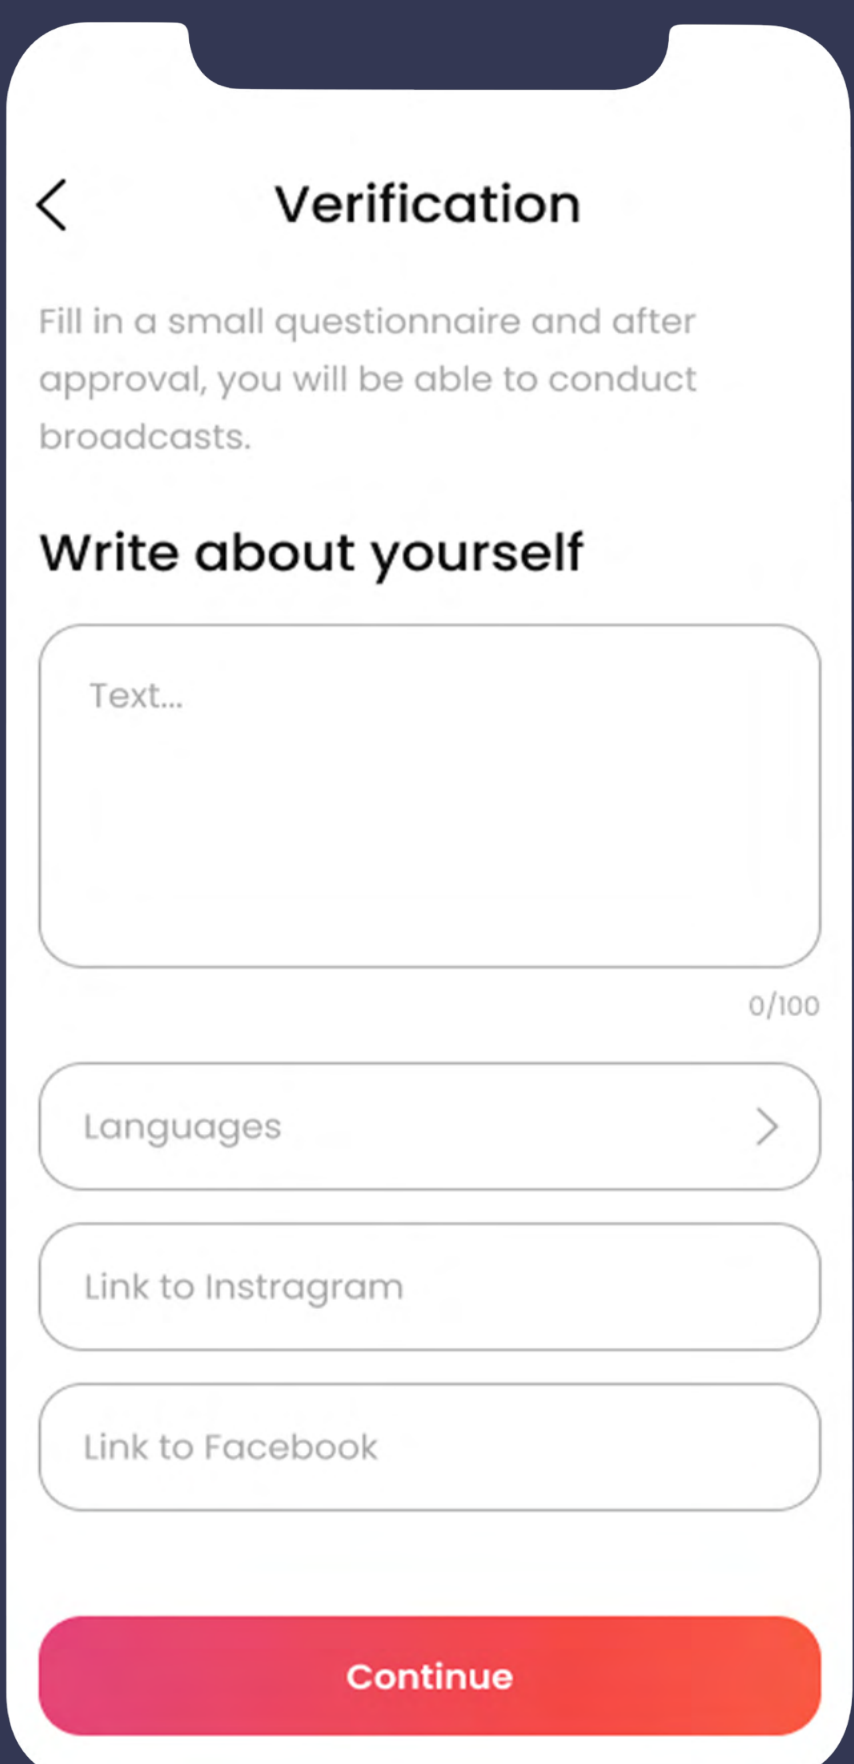

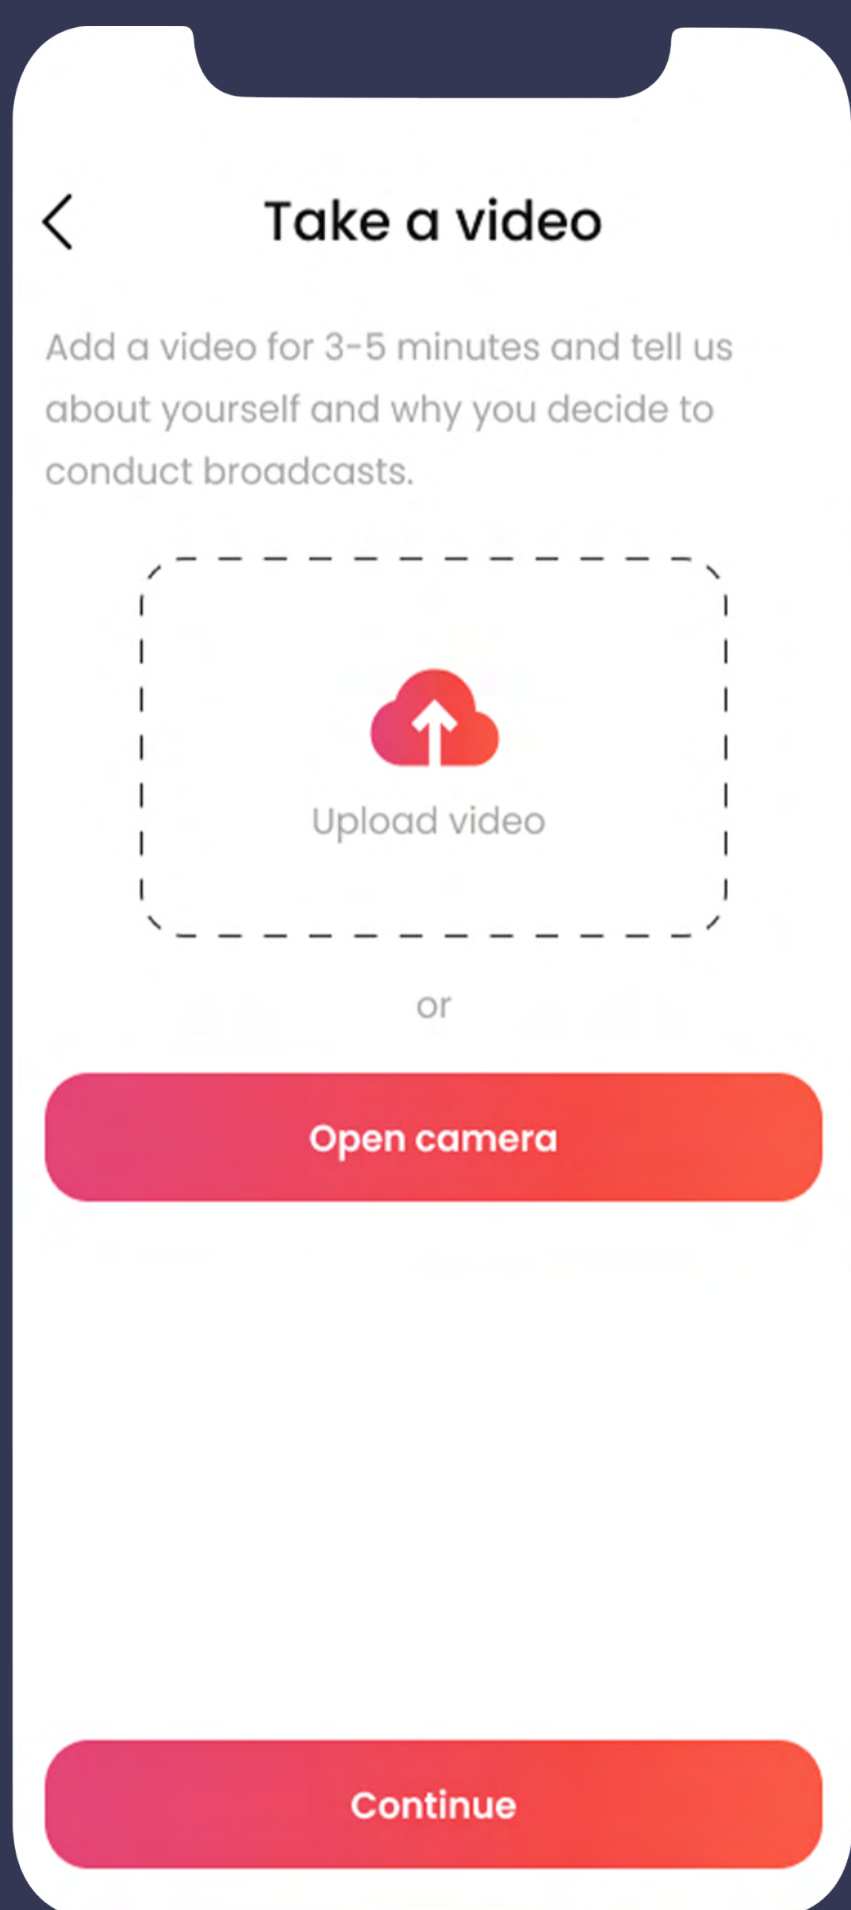

Live Broadcast

The Live Broadcast section allows verified girls to go live by filling out stream information and receive gifts that are converted into money for her from guys in real-time, creating an interactive experience for users. if you scroll down, you can see more information about the person.

Verification to go live

Users have to go through verification, in which they should fill in some information about themselves, to be able to broadcast. They have to write about themselves, indicate which languages they speak, enter links to social networks and make a short video where they tell why they decided to make broadcasts.

Card balance

In the profile settings there is a balance that is displayed in the form of a credit card. Below there is all information about transactions, as well as the ability to withdraw funds or top up the account.

Profile

In the profile section, users can access various tabs including their balance, notifications, privacy, security and support. They can also buy premium, change the app's language and edit their profile information such as personal details, photos, and interests.

Premium

The Premium section offers users access to exclusive features such as unlimited swipes, advanced search filters, and the ability to see no ads. Users can subscribe to Premium on a monthly or on 6 months basis.

Verification

Getting verified on a dating app adds a layer of security, increases credibility, and may offer additional features. Being verified shows that you are a real person. They should take a front of view of their ID card or driver license to check information and then to take a selfie and make sure the photo is clearly visible.

Thank you for watching!
